Maryland General Assembly

FISCAL NOTE

Senate Bill 210 (Senator Hafer)  
Economic and Environmental Affairs

---

**Hunter Safety Instructions - Complimentary Consolidated Hunting License**

---

This bill requires the Department of Natural Resources (DNR) to issue complimentary consolidated hunting licenses to all interested authorized hunting safety instructors with at least five years of service and who have taught two hunter safety courses during the preceding fiscal year.

---

**Fiscal Summary**

**State Effect:** Special fund revenue decrease of \$7,100 in FY 1999. Federal fund revenue decrease of \$1,500 in FY 1999. Future year losses are assumed to remain constant through FY 2003. Expenditures would not be affected.

(in dollars)	FY 1999	FY 2000	FY 2001	FY 2002	FY 2003
SF Revenues	(\$7,100)	(\$7,100)	(\$7,100)	(\$7,100)	(\$7,100)
FF Revenues	(1,500)	(1,500)	(1,500)	(1,500)	(1,500)
Expenditures	0	0	0	0	0
Net Effect	(\$8,600)	(\$8,600)	(\$8,600)	(\$8,600)	(\$8,600)

Note: ( ) - decrease; GF - general funds; FF - federal funds; SF - special funds

Note: Additional revenue loss could occur in the long-term if the complimentary license encourages additional individuals to become hunting safety instructors.

**Local Effect:** None.

**Small Business Effect:** Minimal.

---

## Fiscal Analysis

**State Effect:** DNR reports that there are currently 371 individuals who would qualify for complimentary hunting licenses under this bill. It is estimated that in fiscal 1997 approximately 70 senior citizens qualified for a lifetime consolidated hunting license or a special annual license. These individuals have presumably already paid their one-time fee for the lifetime license, or pay a nominal amount each year (\$1.25) for an annual license. Therefore, special fund revenues could decrease by \$7,077 for the 301 individuals who would have otherwise paid \$24.50 for a hunting license. (This assumes that 99% of individuals purchase licenses through external vendors who retain a \$1 fee.)

While additional individuals might qualify in the out-years for this license once they meet the five-year requirement, it is assumed that this would be balanced out by individuals who “retire” from the program. In addition, the bill could encourage more individuals to become hunting safety instructors than would otherwise; however, due to the five-year service requirement the revenue loss from this effect would not occur until after fiscal 2002.

DNR receives federal funding in accordance with the number of hunting licenses that are sold; this is contingent on the State receiving payment for these licenses. For each consolidated hunting license sold the State receives approximately \$5 in federal funds. Therefore, about \$1,500 in federal funds would not be received as a result of 301 individuals being issued a complimentary license.
