Fiscal Analysis

Background: Chapter 778 of 1998 established the Task Force to Study Increasing the Availability of Substance Abuse Programs. The Department of Health and Mental Hygiene (DHMH), in cooperation with other appropriate State and local units, is to staff the task force to the extent possible within existing budgeted resources. Members of the task force serve without compensation but may be reimbursed for expenses under the standard State travel regulations.

State Expenditures: DHMH's fiscal 2000 budget includes \$26,561 in general fund

expenditures which reflects full-year costs because the task force will begin meeting in fiscal 1999. This amount reflects the cost of a 0.5 contractual position to staff the task force. It includes salaries, fringe benefits, and intern stipend.

Contractual Salaries and Fringe Benefits	\$20,561
Intern Stipend	5,000
Other Operating Expenses	<u>1,000</u>
Total FY 2000 State Expenditures	\$26,561

Future year expenditures (\$13,036 in fiscal 2001) reflect (1) 2% annual increase in contractual salaries; (2) 1% annual increase in ongoing operating expenses; and (3) the task force's termination date.

The Department of Legislative Services notes, however, that the bill specifies that DHMH staff the task force to the extent possible within existing budgeted resources. DHMH staffed the task force in fiscal 1999 from existing resources. The bill authorizes DHMH to staff the task force in cooperation with other State and local units; this provision allows the department to find resources for the task force from the existing staff of several governmental agencies.
