Fiscal Analysis

Background: The State Board of Veterinary Medical Examiners is responsible for the licensing of veterinarians in Maryland. The board is subject to the Maryland Program Evaluation Act, also known as the “sunset law,” which provides a system of periodic legislative review of the regulatory, licensing and other governmental activities of various units of State government.

The bill arises out of the preliminary sunset evaluation of the State Board of Veterinary Medical Examiners performed by the Department of Legislative Services (DLS) during 1998. In its report, DLS recommended that a full evaluation be waived and that the board be continued and its termination date be extended to July 1, 2011.

State Revenues: State revenues will be maintained beyond fiscal 2001 because the bill proposes to continue the State Board of Veterinary Medical Examiners. The proposed fiscal 2000 budget assumes \$180,000 in general fund revenues for this board from licensing fees.

State Expenditures: State expenditures for the board will be maintained beyond fiscal 2001. The fiscal 2000 appropriation includes \$173,898 in general fund expenditures for this board. Out-year expenditures are expected to remain relatively constant.
