Analysis

Current Law: The Chief Judge of the District Court, upon the recommendation of the administrative judge of each district, must appoint the number of constables required to serve process within that district. An administrative judge must assign the constables to the various courts or divisions of courts within the district so that every court or division has at least one constable.

Background: Constables are State employees whose duties are to serve civil process. Sheriffs also serve civil process. Baltimore and Washington counties are currently the only counties in which constables are used.

State Fiscal Effect: The bill would basically conform the law to current practice. It is not expected that any constables would be laid off as a result of the bill. The bill would not significantly impact governmental finances.
