Tobacco Tax - Purchase of Tax Stamps

This bill increases the discount rate of the purchase price of tobacco tax stamps offered by the State Comptroller to wholesalers from 0.82% to 1.31%. The bill also repeals provisions of current law that authorize the State Comptroller to exempt specified persons from posting security for the tobacco tax under specified circumstances.

The bill takes effect July 1, 2000.

Analysis

Current Law: The discount rate on the purchase price of tobacco tax stamps offered by the State Comptroller to cigarette wholesalers is 0.82%. The State Comptroller is authorized to exempt specified persons from posting security for the tobacco tax under specified circumstances.

Background: Cigarette wholesalers do not file a return for cigarettes purchased. Instead, the tax is paid by the purchase of tax stamps. Cigarette wholesalers purchase tobacco stamps (to pay the tax) in bulk from the Comptroller based on the inventory of cigarettes they expect to have in their warehouses. The stamps are then attached to the packs of cigarettes. The stamp affixed to a pack of cigarettes is a visual verification that the tax has been paid. Because stamps are purchased in large volume, wholesalers are given a discount on the price of the stamp. Chapter 121 of 1999 reduced the licensed cigarette wholesaler discount rate from 1.36% to .82% in addition to increasing the cigarette tax by \$.30 per pack in fiscal 2000. Chapter 121 also imposed a 15% tax on the wholesale price of other tobacco products such as cigars and smokeless tobacco in fiscal 2001.

State Fiscal Effect: The following chart illustrates the revenue loss resulting from the proposed change in the tobacco tax stamp discount rate. It is based on the tobacco tax revenue forecast for fiscal 2001 from the December 1999 Report of the Board of Revenue Estimates. The forecast represents receipts from the tobacco tax, net of the discount.

Fiscal Year (\$ in millions)	Net Receipts	Gross Receipts	Current Law - .82% rate	SB 746 - 1.31% rate	Change
2001	\$1.93	\$1.95	\$1.60	\$2.55	(\$.954)
2002	1.85	1.86	1.53	2.45	(\$.916)
2003	1.78	1.79	1.47	2.35	(\$.879)
2004	1.71	1.72	1.41	2.27	(\$.844)
2005	1.64	1.65	1.35	2.17	(\$.810)

Future years assume a 4% reduction in cigarette tax revenues associated with a decline in consumption.
