4	Article - State Personnel and Pensions
5	21-304.
	(a) In this section, "State member" does not include a member on whose behalf a participating governmental unit is required to make an employer contribution under § 21-305 or § 21-306 of this subtitle.
	(b) (1) Each fiscal year, on behalf of the State members of each State system, the State shall pay to the appropriate accumulation fund an amount equal to or greater than the product of multiplying:
12 13	(i) the aggregate annual earnable compensation of the State members of that State system; and
14 15	(ii) the sum of the normal contribution rate and the accrued liability contribution rate, as determined under this section.
	(2) The amount determined under paragraph (1) of this subsection for each State system shall be based on an actuarial determination of the amounts that are required to preserve the integrity of the funds of the several systems using:
19	(i) the entry-age actuarial cost method; and
20	(ii) actuarial assumptions adopted by the Board of Trustees.
21 22	(3) For the purpose of making the determinations required under this section:
23 24	(i) the Employees' Retirement System and the Employees' Pension System shall be considered together as one State system; and
25 26	(ii) the Teachers' Retirement System and the Teachers' Pension System shall be considered together as one State system.
	(c) (1) As part of each actuarial valuation, the actuary shall determine the normal contributions, net of member contributions, on account of the State members of each State system.
30 31	(2) For each State system, the normal contribution rate equals the fraction that has:
32 33	(i) as its numerator, the sum of the normal contributions determined under this subsection; and

2	(ii) as its denominator, the aggregate annual earnable compensation of the State members of the State system.
5 6	(d) (1) For each State system, the accrued liability contribution rate shall be computed as the percent of the aggregate annual earnable compensation of the State members of that State system that is sufficient to liquidate over 40 years beginning July 1, 1980, the amount, as of June 30, 1980, by which the total liabilities of that State system on account of State members exceeded the sum of:
	(i) the assets of the accumulation fund and the annuity savings fund of that State system, other than assets to the credit of the participating governmental units; and
11 12	(ii) the present value of future normal contributions and future member contributions to that State system on behalf of or by State members.
	(2) On the recommendation of the actuary, the Board of Trustees may adjust the accrued liability contribution rates to reflect, over the greater of 15 years or the time remaining to amortize the accrued liability:
16	(i) experience gains and losses; and
17	(ii) the effect of changes in actuarial assumptions.
20	(3) Except as provided in paragraphs (4) and (5) of this subsection, if the accrued liability is increased by legislation enacted after July 1, 1980, the additional liability shall be funded over 30 years beginning on July 1 coincident with or next following the effective date of the increase.
	(4) If the accrued liability is increased by legislation that provides for early retirement of State employees, the additional liability shall be funded over a period of 5 years beginning on:
25	(i) July 1, 1997 for legislation effective June 1, 1996; and
26	(ii) July 1, 1998 for legislation effective June 1, 1997.
29 30	(5) If the accrued liability is increased by legislation effective July 1, 1998, that provides for changes in the method of computing the retirement allowance of members of the Employees' Pension System or the Teachers' Pension System, the additional liability shall be funded over a period of 20 years beginning on July 1, 1999.
34 35 36 37	(6) If the accrued liability is increased by legislation effective June 1, 1998, that provides for the early retirement of employees of the University System of Maryland who are members of the Employees' Pension System or the Employees' Retirement System, the additional liability shall be determined by the actuary and funded over a period of 5 years beginning on July 1, 1999 by payment of an annual accrued liability contribution by the University System of Maryland and the Medical System as provided in § 21-307(i) and (j) of this subtitle.
