14 Section 15-103(b)(23) ~~and (f)~~
15 Annotated Code of Maryland
16 (2000 Replacement Volume)

17 Preamble

18 WHEREAS, The Medical Assistance Program was designed to "promote
19 Program policies that facilitate access to and continuity of care"; and

20 WHEREAS, One of the original goals of the HealthChoice Program was to
21 "provide enrollees with a medical home"; and

22 WHEREAS, The vast majority of enrollees in the HealthChoice Program are
23 children, and the American Academy of Pediatrics defines the "medical home" as care
24 delivered by a well-trained physician known to the child and family, over an extended
25 period of time, to enhance continuity and develop a relationship of mutual
26 responsibility and trust; and

27 WHEREAS, A medical home is particularly essential to children with special
28 needs who typically require care from a variety of medical and nonmedical providers;
29 and

30 WHEREAS, Three years into the HealthChoice Program, the Department is
31 collecting encounter data and enrollment preferences, but these data systems do not
32 "speak" to each other and the Department does not currently know the primary care
33 provider of each enrollee; and

34 WHEREAS, During the first transition of enrollees to new managed care
35 organizations following the withdrawal of managed care organizations from the
36 State, 70 percent of enrollees living in Baltimore City and 50 percent of enrollees
37 statewide did not choose their new managed care organization, so that enrollees had
38 to be randomly assigned to new managed care organizations which may not have had
39 contractual relationships with their primary care providers; and

1 WHEREAS, The encounter data for all enrollees is currently being collected in
 2 one database at the Center for Health Program Development and Management; now,
 3 therefore,
