Analysis

Bill Summary: Maryland imposes two death taxes. The inheritance tax is applied to the receipt of property from a decedent's estate. Under Chapter 497, for decedents dying on or after July 1, 2000, direct beneficiaries and siblings are exempt from inheritance tax. Direct beneficiaries include parents, grandparents, spouses, children, other lineal descendants, stepparents, and stepchildren, or a corporation if all stockholders are direct beneficiaries. Collateral beneficiaries include all other beneficiaries and are taxed at the rate of 10%.

Maryland's other death tax, the "pick-up" estate tax, applies only if a federal estate tax return is required for the estate of the decedent. Only estates valued greater than \$675,000 in tax years 2000 and 2001 are subject to the federal estate tax, with the floor increasing each year until 2006 when only estates with a gross value of greater than \$1 million are subject. Any estate subject to both the estate tax and the inheritance tax may receive a credit against the estate tax for any inheritance tax paid.
