20 Annotated Code of Maryland
21 (1997 Replacement Volume and 2003 Supplement)

22 Preamble

23 WHEREAS, Workers are an organization's greatest asset and offering a
24 telework option can help recruit and retain valued employees; and

25 WHEREAS, When employees work in more convenient locations, time lost from
26 sick days, late arrivals, and stressful commutes is converted into productive work
27 periods; and

28 WHEREAS, Technology is changing the workplace both in terms of where work
29 is done and how it is done; and

1 WHEREAS, Maryland's communities can benefit from teleworking, which gives
2 workers more time to spend at home with their families; and

3 WHEREAS, Having fewer commuters on the roads, especially at peak hours,
4 lowers the cost of road maintenance and the demand for building new highways and
5 improves the quality of life for residents; and

6 WHEREAS, Fewer or shorter commutes mean less air pollution and the
7 conservation of gasoline and other energy sources; and

8 WHEREAS, By lowering the wasted economic cost of traffic congestion and
9 making the State a more attractive place in which to live and do business,
10 teleworking can improve the State's overall economic health; now, therefore,
