# Department of Legislative Services <br> Maryland General Assembly <br> 2004 Session <br> FISCAL AND POLICY NOTE 

House Bill 315
Ways and Means
(Delegate Howard, et al.)

## State Lottery - Unanticipated Revenues

This bill requires State lottery revenues in excess of the estimate for a fiscal year to be distributed to counties and municipalities instead of being deposited in the State's general fund. The distribution is to be based on sales in each county, except that sales in municipalities may not be included in the counties' sales for purposes of determining this distribution. A county or municipality that receives these funds must spend the money equally between public school and public safety expenses.

The bill takes effect July 1, 2004.

## Fiscal Summary

State Effect: Potential significant decrease in general fund revenues beginning in FY 2005. The extent of any decrease depends on the amount of lottery revenues that exceed projections for a fiscal year. Expenditures would not be affected.

Local Effect: Potential significant increase in local revenues. Corresponding expenditure increase for local school systems and public safety.

Small Business Effect: None.

## Analysis

Current Law: Net revenues from sport lotteries conducted for the benefit of the Maryland Stadium Authority are distributed into the Maryland Stadium Facilities Fund and the net revenues from other State lotteries are distributed to the general fund.

Background: Net revenues from State lotteries are projected to total approximately $\$ 461.9$ million in fiscal 2005. Of this amount, $\$ 22.0$ million is distributed to the Maryland Stadium Facilities Fund and $\$ 439.9$ million is distributed to the general fund. Exhibit 1 shows the distribution of State lottery revenues for fiscal 2001 through 2005.

| Exhibit 1 |  |  |  |  |  |
| :--- | ---: | ---: | ---: | ---: | ---: |
|  | Net Revenues from State Lottery |  |  |  |  |

## State Budgetary Forecasts

The Bureau of Revenue Estimates (BRE) projects State lottery revenues in December and March prior to the start of the fiscal year and in the following December and March once the fiscal year begins. For example, for fiscal 2005, BRE released a December 2003 estimate that was used to form the State budget. This estimate may be revised in March 2004 prior to the adoption of the fiscal 2005 State budget. Once fiscal 2005 begins, BRE will release a revised estimate in December 2004 and March 2005. This legislation does not specify the BRE estimate that would be used in distributing lottery revenues to local school systems. For purposes of this fiscal note, the March estimate prior to the adoption of the State budget is used.

State Revenue Effect: State lottery revenues in excess of the estimate for a fiscal year must be distributed to local school systems. The actual amount of any general fund revenue decrease depends on the amount of lottery revenues that exceed budgetary projections. This amount cannot be reliably estimated because lottery revenue projections and actual revenues vary from year to year. Exhibit 2 provides the budgetary estimates for State lottery revenues, based on the BRE March projections, and actual revenues from fiscal 1996 through 2003.

# Exhibit 2 <br> State Lottery Revenues Exceeding Budgetary Estimate 

| Fiscal Year | Estimated <br> Revenue | Date of <br> Estimate | Actual <br> Revenue | Difference |  |
| :---: | ---: | ---: | ---: | ---: | ---: |
| 1996 |  | $\$ 348,235,000$ |  | March 1995 | $\$ 369,768,000$ | | $\$ 21,533,000$ |
| ---: |
| 1997 |

Local Revenues: State aid to counties for education and public safety purposes would increase depending on the amount of lottery revenues that exceed budgetary projections for a fiscal year. This amount varies from year to year and cannot be reliably estimated. Exhibit 3 shows the distribution of lottery sales by county for fiscal 2003 and the amount of revenues that would be provided to each county for every $\$ 1$ million in lottery revenues that exceed the budgetary projections for a fiscal year. Sales in municipalities are not included in this calculation. These figures are representative of any future year distributions.

## Exhibit 3

Estimated Local Distribution Per $\$ 1$ Million in Lottery Revenues

| County | Total Lottery <br> Sales - FY 2003 | Percent of <br> Sales | Estimated <br> Fund Distribution |
| :--- | ---: | :---: | ---: |
| Allegany | $\$ 11,124,330$ | $0.84 \%$ | $\$ 8,447$ |
| Anne Arundel | $124,010,970$ | $9.42 \%$ | 94,163 |

## Additional Information

Prior Introductions: Similar legislation has been introduced since the 1998 session. At the 2003 session, HB 764 was introduced but it was withdrawn. At the 2002 session, three bills were introduced that would have distributed unanticipated lottery revenues, with local school systems receiving the revenues under SB 636/HB 574 and counties and municipalities receiving the revenues under HB 475. The Senate Finance Committee provided an unfavorable report to SB 636 and the House Ways and Means Committee took no action on HB 475 and HB 574.

Similar bills were introduced at the 2001 session as SB 644/HB 630. SB 644 received an unfavorable report by the Senate Finance Committee and HB 630 received an unfavorable report by the House Ways and Means Committee. A similar bill was introduced at the 2000 session as HB 617. The House Ways and Means Committee amended the bill to include only a task force to study the distribution of lottery revenues. The bill was approved by the full House but the Senate Finance Committee did not take action on the bill. At the 1998 session, HB 939 was introduced that distributed excess lottery revenues to counties and municipal corporations. The bill received an unfavorable report by the House Ways and Means Committee.
