

**Department of Legislative Services**  
 Maryland General Assembly  
 2004 Session

**FISCAL AND POLICY NOTE**  
**Revised**

House Bill 1467 (The Speaker and the Minority Leader)  
 (By Request – Administration)

Ways and Means and Environmental Matters

Budget and Taxation

**Transportation Trust Fund - Transportation Financing - Increased Revenues**

This Administration bill increases the State motor vehicle registration fee and alters the requirements for the level of miscellaneous fees charged by the Motor Vehicle Administration (MVA). It also authorizes a fee for a missed driver’s test appointment, permanently extends the Maryland Trauma Physician Services Fund, and increases the debt limit on consolidated transportation bonds.

The bill takes effect July 1, 2004.

**Fiscal Summary**

**State Effect:** Transportation Trust Fund (TTF) revenues will increase by an estimated \$166 million in FY 2005. Out-year revenues reflect growth in vehicle registrations. TTF expenditures will increase by \$292,000 in FY 2005 only for administrative and personnel costs. Potential increase in TTF expenditures for computer programming costs in FY 2005 only. Transportation bond revenues and related debt service could increase as a result of the \$500 million increase in the debt cap. Special fund revenues and expenditures for the Maryland Trauma Physician Services Fund will continue past FY 2005 (approximately \$12.5 million). Federal fund revenues and expenditures will also continue to increase.

(in dollars)	FY 2005	FY 2006	FY 2007	FY 2008	FY 2009
SF Revenue	\$165,519,800	\$183,133,500	\$185,654,700	\$186,954,800	\$191,869,100
Bond Rev.	-	-	-	-	-
SF Expenditure	292,000	12,483,500	12,504,700	12,604,800	12,819,100
FF Expenditure	0	2,159,100	2,299,400	2,448,900	2,608,100
Bond Exp.	-	-	-	-	0
Net Effect	\$165,227,800	\$168,490,900	\$170,850,600	\$171,901,100	\$176,441,900

*Note:() = decrease; GF = general funds; FF = federal funds; SF = special funds; - = indeterminate effect*

**Local Effect:** Local government revenues will increase by \$44.4 million in FY 2005 from the local share of the increased registration fee revenue.

**Small Business Effect:** A small business impact statement was not provided by the Administration in time for inclusion in this fiscal note. A revised fiscal note will be issued when the Administration's assessment becomes available. As discussed below, the bill will affect certain small businesses.

---

## Analysis

**Bill Summary:** The bill:

- permanently repeals the June 30, 2005 sunset for the Maryland Trauma Physician Services Fund and the \$2.50 annual surcharge on vehicle registration fee that supports the fund;
- increases the State vehicle registration fee for all classes of vehicles;
- increases the cap on outstanding and unpaid consolidated transportation bonds from \$1.5 billion to \$2.0 billion;
- alters the requirements for the level of miscellaneous fees charged by the MVA to include the cost of the annual average MVA capital budget (as reported in the six-year consolidated transportation program (CTP)) in determining the maximum fee;
- permits the MVA to create and charge a fee for persons who fail to keep appointments made for noncommercial driver tests; and
- redefines a miscellaneous fee to exclude the portion of the motorcycle registration fee that exceeds \$13.50 (technical correction).

Some of the fee increases are shown below. A detailed summary of all the registration fee increases by vehicle class is provided in **Appendices 1 and 2**.

<u>Fee</u>	<u>Current Amount</u>	<u>Proposed Amount</u>
Registration fee for Class A (passenger) and Class M (multipurpose) vehicles that weigh less than 3,700 lbs.	\$54 biennially	\$101 biennially
Registration fee for Class A and Class M trucks that weigh over 3,700 lbs.	\$81 biennially	\$153 biennially

NA: Not applicable because the fee does not exist under current law.

The proposed increase to the motor vehicle registration fee will not affect the \$22 biennial surcharge for vehicle registrations that is dedicated to the Maryland Institute for Emergency Medical Services Systems (MIEMSS).

Examples of miscellaneous fees affected by the bill include those for a new or renewed driver's license, reinstatement of revoked driving privileges, security interest filings, and licenses for transportation-related businesses, such as vehicle dealers, drivers' schools, and title service agents.

**Current Law:** The current law that applies to the various provisions of the bill is described below.

*Transportation Fees:* The MVA has the authority to establish most fees by regulation; however, the State vehicle registration fee is set in statute. The MVA must recover between 95% and 100% of its operating costs through the establishment of miscellaneous fees, which consists of all fees that it charges except vehicle titling tax and registration fees. Operating costs are defined as the approved operating budget for that fiscal year and the MVA's portion of the cost for that fiscal year of the Maryland Department of Transportation's (MDOT) data center operations, except for the cost of operations attributable to other administrations' activities.

The MVA may not alter miscellaneous fees more than once in any fiscal year or reduce fees for the upcoming fiscal year if legislative budget modifications cause the projected cost recovery percentage to exceed 100%.

State law does not authorize the MVA to charge a fee for a missed driver's test. Applicants for a commercial driver's license must pay a fee for a required skills test (\$40) or a skills retest (\$20).

*Bonds:* MDOT may issue consolidated transportation bonds as long as the aggregate outstanding principal balance of these bonds and bonds of prior issues does not exceed \$1.5 billion at one time. The maximum unpaid balance as of June 30 for the next fiscal year must be set by the General Assembly in the budget bill and may not exceed the \$1.5 billion limit.

*Maryland Trauma Physician Fund:* Chapter 385 of 2003 created this fund to increase the reimbursement for uncompensated care incurred by a trauma physician who provides services to a patient on the State Trauma Registry, as well as for under-compensated care incurred by a trauma physician in caring for a Maryland Medicaid patient. The law also provides reimbursement to trauma centers for on-call stipends. The fund, which is supported by a \$2.50 annual surcharge on the State registration fee, became effective July

1, 2003 and is slated to terminate June 30, 2005. This fee is in addition to the \$11 annual surcharge added to the registration fee for MIEMSS.

**Background:** The MVA last raised its miscellaneous fees in 2001. Under the current formula, miscellaneous fees will have to be increased again by \$3.7 million in fiscal 2006 to recover costs. In fiscal 2003, the MVA collected \$190.7 million in miscellaneous fees; following deductions for various funds, net miscellaneous fee revenue was \$129.8 million. There are approximately 30 authorized fees, in addition to 25 occupational license fees and various administrative fees. Many of them relate to driver’s licenses or learner’s permits.

Among the 27 states other than Maryland that do not allow local jurisdictions to assess annual taxes on automobiles, 13 states (and the District of Columbia) assess higher annual registration rates than the \$27 assessed by Maryland. Four (Indiana, Delaware, Arkansas, and Oregon) charge less for an annual registration than Maryland; and 10 states cannot be ranked against Maryland’s rate. The chart below compares Maryland’s current vehicle registration rates with those assessed in all surrounding states and in the nine other states that maintain multi-modal transportation funds.

<u>State</u>	<u>Annual Vehicle Registration Rate</u>
<b>Maryland</b>	\$27/Class A & M vehicles weighing up to 3,700 lbs. \$40.50/Class A & M vehicles weighing more than 3,700 lbs.
<b><u>Surrounding States</u></b> <b><u>(without Multi-modal Transportation Funds)</u></b>	
<b>District of Columbia</b>	\$72/vehicles weighing up to 3,500 lbs. \$115/vehicles weighing more than 3,500 lbs.
<b>West Virginia</b>	\$30/vehicles weighing up to 8,000 lbs.
<b><u>States with Multi-modal</u></b> <b><u>Transportation Funds</u></b>	
<b>Connecticut</b>	\$35 for passenger vehicles
<b>Delaware</b>	\$20/vehicles weighing up to 5,000 lbs. For vehicles weighing over 5,000 lbs., fee is \$20 plus \$16.80 for each additional 1,000 lbs.
<b>Florida</b>	\$27.60/autos up to 2,499 lbs. and trucks and trucks up to 1,900 lbs. \$35.60/autos between 2,500 lbs. and 3,499 lbs. and trucks between 2,000 lbs. and 3,000 lbs.

**States with Multi-modal  
Transportation Funds**

<b>Louisiana</b>	Annual fees are based on a sliding fee scale per the value of the car being registered.
<b>Pennsylvania</b>	\$36 for passenger vehicles
<b>Tennessee</b>	\$24 for passenger vehicles
<b>Vermont</b>	\$50 for a one-year registration or \$92 for a two-year registration for all gas-powered automobiles
<b>Virginia</b>	\$29.50 for vehicles weighing up to 4,000 lbs.
<b>Wisconsin</b>	\$55 flat Automobile Plate Fee

The Transportation Task Force, appointed by the Governor in 2003 to find new funding options for future transportation projects, concluded that unfunded transportation needs for all modes total \$10.5 billion between fiscal 2005 and 2010. Projects identified by the Administration for which the increased revenue may be used include upgrading I-695 in Baltimore, constructing new interchanges for Route 4 in Prince George’s County, making safety improvements on US 113 and Route 404, and technology upgrades for the State transit system (known as NEXT).

**State Fiscal Effect:**

*Transportation Trust Fund:* TTF revenues will increase by \$166 million in fiscal 2005 as a result of the increased fees authorized by the bill. Out-year TTF revenues will increase by the growth in vehicle registrations and MVA’s capital costs, which will affect miscellaneous fees. The fiscal 2005 revenue increases by source are shown below.

<u>Source</u>	<u>Revenue</u>
Vehicle registration fee increase	\$147,969,759
Miscellaneous fee formula changes	17,400,000
Driver retest fee	<u>150,000</u>
<b>Total</b>	<b>\$165,519,759</b>

This estimate is based on the following assumptions:

- \$133.1 million of capital costs for the MVA over six years in the fiscal 2004-2009 CTP, which averages \$22.8 million per year;
- the MVA will charge a \$20 missed test fee, and 5% of all appointments (7,500) are canceled or no-shows, based on 150,000 driver's tests during fiscal 2003; and
- registration fees will increase for 4.8 million vehicles.

TTF expenditures will increase by \$292,000 in fiscal 2005 only for temporary personnel and printing costs. The MVA advises that it will need eight contractual employees in fiscal 2005 to respond to customer queries about the fee increases and handle related administrative duties, at a cost of approximately \$192,000. The MVA will also need an estimated \$100,000 to revise over 200 customer forms to reflect the new fees.

The MVA further indicates that it will cost approximately \$165,000 to update its computer system. DLS advises that if other legislation is passed requiring computer reprogramming changes, economies of scale could be realized. This would reduce the costs associated with this bill and other legislation affecting the MVA system.

#### *Capital Program Impact*

Currently there is a statutory limit of \$1.5 billion for consolidated transportation bonds. This legislation would raise the limit to \$2.0 billion; this change and the additional revenues enables MDOT to sell approximately \$505 million of additional consolidated transportation bonds between fiscal 2005 and 2009. These sales would nearly triple the amount of debt sold between fiscal 2005 and 2009 above the amount previously projected. As a result of these sales, total debt outstanding at the end of fiscal 2009 could be raised to approximately \$1.95 billion – an increase of approximately 192% above the level that could be supported without the revenues generated by this bill.

The bill could yield approximately \$1.3 billion in additional funding for capital projects over that six-year period, raising total State and federal capital expenditures for the period to approximately \$8 billion. Total debt service payments between fiscal 2005 and 2009 would increase by approximately \$100 million over the amount projected for this period in the original forecast. The revenues and debt service payments from additional bonding capacity discussed here are not incorporated in the fiscal summary on page one because annual estimates cannot be predicted at this time. For example, the entire capacity could be used in one year.

#### *Maryland Trauma Physician Services Fund*

The bill also makes permanent the Maryland Trauma Physician Services Fund, which is estimated to generate \$12,483,285 of revenue in fiscal 2006, based on the \$5 biennial

surcharge, and provide for the same amount of expenditures for payments to trauma providers. Revenue growth will vary according to vehicle registration cycles.

Federal Medicaid expenditures and matching revenues will continue at approximately \$2.2 million in fiscal 2006 to reimburse trauma physicians and trauma centers at the new rate, and be reimbursed by the trauma fund for the general fund expenditure. Future year expenditures reflect 6.5% medical inflation in the Medicaid program, which will vary annually. This estimate assumes that Medicaid reimbursement rates are permanently adjusted to 100% of Medicare reimbursement rates.

**Local Revenues:** Local governments will receive 30% of the increased registration fee; accordingly, local government revenue will increase in fiscal 2005 by \$44,390,928 and annually thereafter according to the growth of vehicle registrations.

**Small Business Effect:** The Administration has not submitted a formal impact statement but MDOT advises that the fee increases will initially have a negative impact but would benefit small business in the long term through improved transportation systems. DLS notes that small businesses that purchase vehicles or vehicle fleets, such as delivery companies, trade contractors, and transportation services (taxi, limousines) will pay substantially increased registration fees. Self-employed commercial drivers may also face slightly higher costs, as well as small businesses that pay the MVA for a license to operate.
