## 28. Comments:

In the year 2000 the Ocean City Chamber of Commerce received \$400,000 through HB 840/SB 692 for the acquisition, design and construction of a new visitors center. The project is now complete but during the construction period the Chamber experienced cost overruns totaling \$100,000. The additional costs were due to environmental issues that arose near the end of the project. At ths time we are respectfully requesting \$50,000 with \$50,000 in matching funds from the Chamber to fund the deficit created.
