Senator Thomas McLain Middleton		Delegates Sally Jameson, Murray Levy and Wm.				
		Daniel Mayer				
<b>4. Jurisdiction</b> (County or Baltimore City)		5. Requested Amount				
		\$500,000				
		Southern				

#### 6. Purpose of Bill

Authorizing the creation of a State Debt not to exceed \$500,000, subject to a matching fund requirement, the proceeds to be used as a grant to the County Commissioners of Charles County for the planning and design of a 4,500-seat multi-purpose stadium facility on a suitable site in Charles County that will provide a venue for professional minor league baseball games, local and regional community events, and youth sports championships and athletic competitions.

## 7. Matching Fund Requirements

This bill requires an equal match. No part of the matching fund may consist of real property, in kind contributions, or funds expended prior to the effective date of the Act.

### 8. Special Provisions

None.

## 9. Description and Purpose of Grantee Organization

The County Commissioners of Charles County are the governing body of Charles County, Maryland, a general purpose unit of local government.

### 10. Description and Purpose of Project

This project would create a 4,500-seat multi-purpose stadium facility in Southern Maryland, the fastest growing region of the State, providing a much-needed focal point for the community, a venue for regional activities and events, youth-oriented sports competition, and wholesome family entertainment. The stadium will be designed to accommodate the full range of sports--football, soccer and lacrosse, for example--in addition to minor league professional baseball, and provide a professional-quality facility for local and regional playoffs and championships. In addition to providing recreational opportunities for young people and families, a minor league stadium in Southern Maryland would deliver significant economic and fiscal results for the State, according to an economic impact study prepared by the Maryland Department of Business and Economic Development. Based on the experience of other Maryland communities, a stadium will likely bring new business and private sector investment to Charles County and the area. This is the only region of Maryland where the State has not yet invested in creating an asset of this kind.

Round all amounts to the nearest \$1,000. The totals in Items 11 (Estimated Capital Costs) and 12 (Proposed Funding Sources) must match. The proposed funding sources must not include the value of real property unless an equivalent value is shown under Estimated Capital Costs.

Proposed Minor League	Baseball Stadium in South	nern Maryland " Th	e DRI	-	

of attendance at minor league baseball games developed by the Maryland Department of Business and Economic Development, in their February, 2004 report entitled, "Economic Impact of a Proposed Minor League Baseball Stadium in Southern Maryland." The DBED projection only covers attendance at the 70 minor league baseball games played at home each season. In addition to professional baseball, this multi-purpose stadium facility will be specifically designed to accommodate other local and regional community events, youth sports championships, and athletic competitions during the remainder of the year, such as football, soccer, and lacrosse. This will significantly increase the projected number of people who will be served each year, above the estimate of 280,000.
