10. Description and Purpose of Project		
<p>Anne Arundel County is in the process of completing a new community park on approximately 121 acres bordering the Patuxent River in Davidsonville, Maryland. The park will include three baseball fields, two multi-purpose fields, a large practice area, a concession/restroom/storage building, a playground and over two miles of paved trail. The base contract includes athletic field lighting on only half of the practice area.</p> <p>The inclusion of additional athletic field lighting is very important in order to provide time for practices and games during the spring and fall months when the early onset of darkness would otherwise curtail play. With growing populations and an increasing number of sports played in each season, the addition of lighted facilities permits existing park infrastructure to serve a much larger number of children and adults, saving the cost of additional land acquisition and field construction.</p> <p>Currently, the Davidsonville Athletic Association serves approximately 2,700 youth, primarily in field sports and tee ball. Southern Maryland Little League provides baseball programs at the park for several hundred additional youth.</p>
