7. Matching Fund Requirements

Prior to the payment of any funds, the grantee shall provide and expend a matching fund. No part of the fund may consist of real property, in kind contributions, or funds expended prior to the effective date of this Act.

8. Special Provisions

None

9. Description and Purpose of Grantee Organization

East Baltimore Development, Inc. (EBDI) is a non-profit 501(c)(3) organization charged with the oversight of the \$1 billion revitalization of an 80-acre portion of East Baltimore. EBDI collaborates with a number of partners including the City of Baltimore, the State of Maryland, the Federal government and a host of local civic groups and charitable Foundations. Key EBDI organizational areas include: 1) Community Engagement & Outreach, 2) Data Management & Analysis, 3) Family Services, 4) Acquisition and Relocation, and 5) Real Estate Development. As a result of the competitive bidding process, thorough evaluation (including support from the Housing Authority of Baltimore City) and extensive review, a development team was selected in December 2004 to build the initial phase of the East Baltimore revitalization effort. The team selected is The Forest City—New East Baltimore Partnership and is comprised of Forest City Enterprises and Baltimore Biotech Ventures, a consortium of minority-owned firms that came together to foster the development of the New East Baltimore Community. The Forest City team is poised to invest \$500-million into the first development area.

10. Description and Purpose of Project

Although the neighborhood is home to the world-renowned Johns Hopkins Medical Center, the redevelopment effort encompasses one of the most distressed areas in Middle East Baltimore City. Business leaders, private foundations, elected officials, and neighborhood residents have joined together to spearhead the success of this very unique economic development initiative. The development program will transform over 80-acres of blighted, under-utilized land into a thriving mixed-income, mixed-use community that will include: (1) a state-of-the-art Life Sciences and Technology Park; (2) new and renovated housing; (3) neighborhood retail; (4) streetscape improvements; (5) commercial office space, and (6) a new pre-K through Grade 8 school. This project will ultimately create up to 6,000 new jobs. In addition, it will feature 1,200 new or renovated homes for mixed-income buyers and renters, including town homes, duplex homes, apartments and senior housing. Low income, moderate and market rate housing will be available for rent and purchase. Finally, Baltimore's New Eastside will emerge as a vibrant community that will also feature new landscaping, streetscapes, parks, schools and transportation. Because of the compelling need to transform the bleak character of East Baltimore, EBDI requests \$8-million to undertake public infrastructure, property acquistion and deconstruction activities that will ensure the success of the entire redevelopment effort.

Round all amounts to the nearest \$1,000. The totals in Items 11 (Estimated Capital Costs) and 12 (Proposed Funding Sources) must match. The proposed funding sources must not include the value of real property unless an equivalent value is shown under Estimated Capital Costs.

11. Estimated Capital Costs	
Acquisition	\$63,673,000
Design	84,260,000
Construction	820,000,000
Equipment	included above
Total	\$967,933,000

12. Proposed Funding Sources – (List all funding sources and amounts.)

Source	Amount
US Federal	25,200,000
