Analysis

Bill Summary: MdTA would consist of eight appointed members in addition to the chairman of the authority. At least four of the appointed members of MdTA must have specified technical expertise. Terms of service for members are increased to four years, and the terms of the appointed members expire on a staggered basis. The terms of

service of members whose terms were scheduled to expire in 2007 would now expire in 2006. The terms of service of members whose terms were scheduled to expire in 2008 now expire in 2007. The terms of service of the two additional members appointed under the bill expire in 2007. Appointed members may not serve more than two consecutive terms.

Current Law: There are seven members of MdTA: the chairman (the Secretary of Transportation) and six members appointed by the Governor. Members serve a three-year term. One-third of all terms expire each year. MdTA has supervision over all transportation facility projects and has the power to acquire and dispose of property, enter into contracts, apply for and receive grants, condemn land, and take all other actions it considers necessary to exercise its powers and perform its duties.

Background: Established in 1971 as an independent, nonbudgeted State agency, MdTA is responsible for the operation of the State's seven existing toll facilities. MdTA has assumed an expanded role in financing nontolled transportation facilities since the 1980s. MdTA has provided fund transfers and loans to the Transportation Trust Fund (TTF) and has assumed responsibility for building nontolled facilities that could not be financed through the TTF. MdTA has also served as the conduit through which debt backed by a variety of revenue sources has been issued by several Maryland Department of Transportation modal administrations.

State Expenditures: MdTA advises that it pays its authority members \$400 per meeting and travel expenditures. There is a monthly meeting of the authority as well as subcommittee meetings. MdTA advises that the number of meetings annually averages 18. Therefore, nonbudgeted expenditures would increase by \$10,800 in fiscal 2006 and \$14,400 annually thereafter. Travel expenses could be handled with existing resources.
