37 113-14.

38 A. For the purpose of providing funds for maintaining, [repairing]  
39 REPAIRING, and operating its water supply and sewerage systems, for line extensions  
40 of them, for its administrative and other expenses, including proper depreciation

1 allowances, if any, and for interest on and the retirement of bonds as specified in this  
2 chapter, the Commission may make service rates, as it deems necessary, on water  
3 lines and sewers chargeable against all properties having a connection with any  
4 water pipe or sewer pipe under its supervision or ownership. The rate for both water  
5 and sewer service shall be uniform throughout a sanitary district, subject to changes  
6 that the Commission considers necessary. Beginning on July 1, 1993, the rate for both  
7 water and sewer service shall be uniform throughout all sanitary districts, subject to  
8 changes that the Commission considers necessary. However, where the Commission  
9 provides service to property in an area in which it is economically not feasible to  
10 provide service at the uniform rate because of the distance of the area from the  
11 principal facilities of the Commission, the Commission may classify the property as a  
12 remote area and may impose an additional service charge to meet the additional cost  
13 of providing service to the property. The Commission may collect a reasonable deposit  
14 in advance of furnishing water or sewerage service. The Commission shall begin the  
15 assessment of water and sewer service rates either at the time of the connection of all  
16 spigots or hydrants, toilets, and waste drains to a water main or sewer or on the  
17 expiration of the deadline for connection as required by the Commission in accordance  
18 with § 113-10 of this Article, whichever occurs first.

19 B. The sewer service rates shall be reasonable and shall be charged to all  
20 properties being served in a given sanitary district.

21 C. The water service charge shall consist of a minimum or ready-to-serve  
22 charge, which shall be based upon the size of the meter on the water connection  
23 leading to the property, and of a charge for water used, which shall be based upon the  
24 amount of water passing through the meter in excess of any water included in the  
25 minimum or ready-to-serve charge during the period between the last two (2)  
26 readings. The meter shall be placed on water connections as determined by and at the  
27 sole expense of the Commission. If the Commission at any time determines not to  
28 have meters installed in all the properties in a given sanitary district that are  
29 connected to the system, then a reasonable flat rate, as determined by the  
30 Commission, shall be charged to all properties in which meters have not been  
31 installed. This rate shall be uniform within a sanitary district.

32 D. Bills for the amount of the charges shall be sent monthly, quarterly or  
33 semiannually, as the Commission determines, to the owner of each property served  
34 and are then payable at the office of the Commission. If any bill remains unpaid after  
35 thirty (30) days from the due date or dates specified in it, the bill is overdue and the  
36 Commission may begin collection proceedings. At the request of the owner, bills for  
37 services may be sent, at the discretion of the Commission, to persons or entities other  
38 than the owner, provided that the owner states in his request that any bill so mailed  
39 will be considered as notice to him as if it were mailed to the owner in accordance with  
40 above.

41 E. When a bill is overdue and after written notice is left upon the premises or  
42 mailed to the last known address of the owner, the Commission shall turn off the  
43 water or sewer, if possible, from the property in question. The water or sewer service  
44 may not be resumed until the bill or bills, and a charge as determined by the

1 Commission to cover costs incurred to turn off and to turn on the water or sewer  
2 service, have been paid.

3 F. If any charges remain unpaid for a period of thirty (30) days after the due  
4 date for payment, a late charge at a rate not to exceed one and five-tenths (1 5/10)  
5 percent per month may be made by the Commission until all delinquent charges are  
6 paid, the late charge to be in addition to all other charges.

7 G. If any bill shall remain unpaid for thirty (30) days after the due date, it  
8 shall be collectible from the owner of the property served in the same manner as other  
9 debts are collectible in the county. The service charges and all penalties and late  
10 charges shall be a first lien against the property, and the same procedures as set forth  
11 in [Subsection 164(L)9] § 113-12D OF THIS CHAPTER, shall be followed by the  
12 Commission in collecting those debts.
