## **Analysis**

**Background:** The 2005 *Joint Chairmen's Report* required DPSCS to report quarterly, beginning July 1, 2005, on inmate assaults for the correctional and detention facilities. DPSCS developed and instituted the use of new software – the Facility Incident Reporting Manager (FIRM) – designed to collect assault data and eliminate some of the human error variations in the collection method used prior to July 1, 2004.

According to the most recent report (October 1, 2005 – December 31, 2005), the Division of Correction had a total of 157 inmate-on-staff assaults, and the inmate-on-inmate assaults totaled 322. The Division of Pretrial Detention and Services had 9 inmate-on-staff assaults for the quarter, and 91 inmate-on-inmate assaults. At the Patuxent Institution there were 12 inmate-on-staff assaults and 12 inmate-on-inmate assaults.

Most of the assaults for all facilities were of the less serious physical assault category.
