Department of Legislative Services

Maryland General Assembly 2006 Session

FISCAL AND POLICY NOTE

Senate Bill 1082 Budget and Taxation (Senator Exum)

Creation of a State Debt - Prince George's County - Ridgely Rosenwald School

The bills listed below authorize the issuance of general obligation bonds to provide grants to various recipients for the acquisition, planning, design, construction, expansion, repair, restoration, renovation, reconstruction, or capital equipping of various facilities.

Most bills require either a hard or soft match as noted. Where no match is required the term "grant" is indicated. A hard match means the recipient provides a dollar-for-dollar match of the State funds and does not expend the matching funds until after the effective date of the authorizing act. A soft match is any other type of match. Soft matches include the value of the real property, in kind contributions such as materials or construction services, or funds expended prior to the effective date of the bill. A match key is provided immediately below the list of projects.

The list is organized into three categories: Maryland Hospital Association (MHA) projects, statewide bond bills, and local bond bills. Within the local bond bill category the projects are sorted first by the county in which the project is located and then alphabetically by project title. Most projects have both a House and a Senate bill.

As introduced by the Governor, the Maryland Consolidated Capital Bond Loan (MCCBL) of 2006, referred to as the capital budget, allows \$3,487,000 for MHA allocations and \$15 million for legislative initiatives. However, because the General Assembly can both reduce and add to the capital budget, the budget committees may consider bond bill requests during the 2005 session in excess of the amount earmarked in the MCCBL as introduced by the Governor.

Fiscal Summary

State Effect: These grants would be part of the total general obligation debt authorization for FY 2007. The Spending Affordability Committee recommended a general obligation debt authorization of \$690 million for FY 2007, of which \$5 million is authorized under separate legislation (Chapter 103 of 2002) for the Tobacco Transition Program. The Governor's budget as introduced assumes general obligation debt authorizations totaling \$690 million including \$4 million for the Tobacco Transition Program. State debt service costs on \$670 million would be a maximum of \$74.5 million annually based on an interest rate of 5%. The State last sold bonds on March 1, 2006. The \$280 million of tax-exempt bonds sold bear a single coupon rate of approximately 5% and 15-year maturity. In addition, \$20 million of taxable bonds sold bear a single coupon rate of 5% over five years.

Local Effect: None, unless the recipient is a local government.

Small Business Effect: Minimal.
