| Charles County | | | | \$3,000,000 | | | |
| (D ADM | | | | | | | |

6. Purpose of Bill

Authorizing the creation of a State Debt not to exceed \$3,000,000, the proceeds to be used as a grant to the Board of County Commissioners of Charles County for the planning, design, construction, and capital equipping of a multipurpose stadium facility, located in Waldorf.

7. Matching Fund Requirements

This bill requires a standard match.

8. Special Provisions

None.

9. Description and Purpose of Grantee Organization (3000 characters maximum)

The County Commissioners of Charles County are the governing body of Charles County, Maryland, a general purpose unit of local government.

10. Description and Purpose of Project (3000 characters maximum)

This project would create a 4,500-seat multi-purpose stadium and entertainment complex in Southern Maryland, the fastest growing region of the State, providing a much-needed focal point for the community, a venue for regional activities and events, youth-oriented sports competition, and wholesome family entertainment. The stadium will be designed to accommodate the full range of sports--football, soccer and lacrosse, for example--in addition to minor league professional baseball, and provide a professional-quality facility for local and regional playoffs and championships. In addition to providing recreational opportunities for young people and families, a stadium in Southern Maryland would deliver significant economic and fiscal results for the State, according to the economic impact study prepared by the Maryland Department of Business and Economic Development. Based on the experience of other Maryland communities, a stadium will likely bring new business and private sector investment to Charles County and the area. Southern Maryland is the only region where the State of Maryland has not yet invested capital funds in the creation of an asset of this kind.

Round all amounts to the nearest \$1,000. The totals in Items 11 (Estimated Capital Costs) and 12 (Proposed Funding Sources) must match. The proposed funding sources must not include the value of real property unless an equivalent value is shown under Estimated Capital Costs.

11. Estimated Capital Costs

| Acquisition | (43-acre project site has been donated |

*The number of people to be served annually after the project is complete is based upon an estimate of attendance at minor league baseball games developed by the Maryland Department of Business and Economic Development, in their February, 2004 report entitled, "Economic Impact of a Proposed Minor League Baseball Stadium in Southern Maryland." The DBED projection only covers attendance at the 70 minor league baseball games played at home each season. In addition to professional baseball, this multi-purpose stadium facility and entertainment complex will be designed and utilized year-round for other local and regional community events, concerts, youth sports championships and athletic competitions, such as football, soccer, and lacrosse. This will significantly increase the number of people who will be served each year, above the estimate of 280,000.
