This project is necessary to provide recreational facilities for the Elkrigde Planning Area. The County will seek public input and utilize the Statewide Recreation Survey to determine park facilities. This survey plus the County's current facility inventory indicates a need for additional facilities such as athletic fields, indoor sports facilities, basketball courts, and a tennis complex specializing in player development. Revisions to this list and additional facilities may result from future public meetings. The Elkrigde Planning Area has a population of 60,000; a Regional Park such as this will draw upon the County's 270,000 residents.

<p>This park is strategically located in the Elkridge Planning Area of Howard County with immediate access to Interstate 95, Maryland Route 100 and U.S. Route 1. It contains a historic mansion known as the Troy Mansion built around 1820. The County has entered into an agreement with the National Park Service for the renovation of this building separate from this Bond Bill. This project proposes to design and construct passive and active recreation facilities in addition to the mansion. This park is identified in the 2005 Land Preservation, Recreation and Parks Plan as a "short range" effort. It is also part of the County's fiscal year 2006 and 2007 Capital Budget. The County is requesting \$500,000 in State assistance and the County will match that amount using fiscal year 2006 and 2007 Capital Budget funds.</p>
