Explanation: These provisions provide for a \$530 million general fund reduction in the fiscal 2008 budget, \$312 million of which is contingent on legislation that would limit growth in fiscal 2008 funding for primary/secondary education to 8% and for community colleges to 10%, level fund certain programs, phase out the property tax grant program, and require the Department of Health and Mental Hygiene to establish a Medicaid premium plan for certain recipients. An additional \$44.6 million is reduced contingent on legislation capping State payments for teachers’ retirement and pensions at \$555 million. Higher education funding would be sufficient to fund current services. Certain PAYGO capital programs would be reduced, contingent on those projects being funded in the capital budget bill. Certain items in the budget would not be subject to the across-the-board reduction of \$113 million. Implementing these reductions would limit fiscal 2008 general fund budget growth to \$321 million or 2.4% above fiscal 2007, exclusive of appropriations to the reserve fund. It would also add \$530 million to the fiscal 2008 fund balance. This balance and the ongoing reductions implemented through these provisions and SB 1021 would address almost 75% of the projected \$1.6 billion budget gap in fiscal 2009.
