#### 10. Description and Purpose of Grantee Organization (3000 characters maximum)

The City of Takoma Park is a municipal government. The City has built a tradition of volunteer and City run programs that enable our residents, especially our youth and seniors, to better their minds and bodies through education, social and athletic activities. These services include clubs, sports, special events, and after school and summer programs for youth.

### 11. Description and Purpose of Project (3000 characters maximum)

The proportion of children to adults in the City of Takoma Park is increasing and so the demand and need for additional educational and recreational programs and services is increasing as well. In the past, this community lost the use of three indoor recreational facilities where many of the programs were sponsored. Other space in schools and community buildings is limited, often poorly configured for needed programs, and subject to preemption by the school or building owner. Because of this, the City of Takoma Park decided to expand and transform its primary municipal building into a community learning center with recreational space. The project is being constructed in three phases, two of which have been completed. Phase I was completed in October, 2005 with 26,500 sq ft of new and renovated community center space, including a large computer learing center, senior room, art room, four meeting rooms and associated parking and infrastructure improvements. Phase II opened in June, 2006 with 8,000 sq ft of space renovated into a teen room, game room, dance studio/tot room and an additional meeting room. The facility is fully booked with many exciting activities--after school programs, art classes, public computer use and tutoring, senior programs, etc. The location of the building, within walking distance of three schools and apartments and homes housing over 6,700 people, allows the facility to be a community focal point. What is lacking is the third pase of the project: a gymnasium to accommodate the more active recreational needs of the community. The plans for the Center provide space for an attached gymnasium, but funds for this addition is needed. Phase III consists of 10,000 sq ft of new space.

(Proposed Funding Sources) must match. The proposed funding sources must not include the value of real property unless an equivalent value is shown under Estimated Capital Costs. 12. Estimated Capital Costs Acquisition Design \$1,800,000 Construction \$17,000,000 **Equipment** \$18,000,000 Total 13. Proposed Funding Sources – (List all funding sources and amounts.)
