10. Description and Purpose of Grantee Organization (3000 characters maximum)

Reclaiming Our Children And Community Project, Inc. is a family cultural enrichment multipurpose center. Our Purpose is to provide social conflict resolution services for children, youth and their families that suffer from substance abuse, mental abuse and physical abuse along with the cycles of operating in dysfunctional environment for generations. Our mission is to motivate and assist those children, youth and families dealing with an impoverished situation to develop positive healthy life skills and social skills in order to reclaim life. Our services includes parent crisis intervention training, after school programming for ages 5-12, Out of school program for teens ages 13-21, community service for youth ages 12-18, life skills and social skills groups, daily debriefing reflective groups, family meeting, family advocacy, counseling services and mentoring. This project is expected to support the program by offering a stable location where children youth and their families can come to and receive services that promote academic, social awareness, conflict resolution, unity and most important, safety. With developers and multiple hospitals racing to buy massive amounts of property, it is important to secure this property for future programming intended for children, youth and their families.

11. Description and Purpose of Project (3000 characters maximum)

The purpose of this project is to first secure the property from being sold to individuals who may look at the property as an opportunity to get rich or make profit without realizing the true value of the services we provide as a non profit organization. 1329-35 W. Baltimore is a refurbished furniture store front in Southwest Baltimore. The building has two store fronts on the ground level, in addition to, having a 2nd and 3rd floor connected to it. The total enclosed square footage is 24, 448. The property will allow us to expand our current program that services the children, youth and families of this community including Baltimore City and surrounding areas. This project would also allow us to open a head start program in fall of 2007. In addition, this project will also allow us to start a carry out/sit in restaurant that serves healthy meals to the community as well as form a catering business from a restaurant commercial kitchen in 2010. As a result, teens and adults will go through training in childcare, receptionist, cooking and hospitality work and finally be employed. This project will expand program, create programs, employ teens and adults and empower the family. Once the financial status of a family changes and they are empowered through life skills and social skills, that family breaks the cycle of operating in poverty and social conflict.

Round all amounts to the nearest \$1,000. The totals in Items 11 (Estimated Capital Costs) and 12 (Proposed Funding Sources) must match. The proposed funding sources must not include the value of real property unless an equivalent value is shown under Estimated Capital Costs.
