1 Preamble

2 WHEREAS, It is essential to the health and vitality of the Chesapeake and
3 Atlantic Coastal Bays that all wetlands and waterways within the State are
4 adequately protected through the permitting and licensing programs administered by
5 the Maryland Department of the Environment; and

6 WHEREAS, Constraints on the Department's General Fund appropriation have
7 limited the Department's effective protection of the State's water resources and have
8 delayed the processing of permits, which in turn has negatively impacted Maryland
9 business interests; and

10 WHEREAS, The assessment of application fees will enable the Department to
11 render permit decisions more quickly and efficiently, even though current processing
12 delays are often the result of requirements outside the control of the Department,
13 including review by other governmental agencies, procedures for public participation,
14 and the failure of an applicant to submit complete and timely information to the
15 Department; and

16 WHEREAS, It is the intent of the General Assembly that the goals of the
17 statewide Nontidal Wetlands Protection Act be furthered and that the joint permitting
18 process with the U.S. Army Corps of Engineers be improved so as to meet the goals
19 and deadlines of the Act more effectively and promptly; and

20 WHEREAS, It is the intent of the General Assembly that the most equitable
21 way to fund the full and effective administration of a statewide Wetlands and
22 Waterways Program in the Department is through reasonable application fees and
23 General Fund appropriations; now, therefore,
