FISCAL AND POLICY NOTE

House Bill 1402 (Delegate Valderrama)
Environmental Matters

Condominiums - Annual Proposed Budget - Required Form and Information

This bill requires the annual proposed budget of a condominium to contain, in addition to existing requirements, any other information reasonably necessary for the informed adoption of the annual budget, including uncollected revenues, any debts of the governing body, and investments. For each item, the annual budget must provide • a total of the actual expenditures or income to date for the current fiscal year; or • an estimated total for the current fiscal year if the actual information is not available.

Fiscal Summary

State Effect: The bill would not directly affect State finances or operations. If the Attorney General's Office receives fewer than 50 complaints per year stemming from the bill, the additional workload could be handled with existing resources.

Local Effect: The bill would not directly affect local finances or operations.

Small Business Effect: Potential minimal.

Analysis

Current Law: The Maryland Condominium Act requires that the council of unit owners prepare an annual proposed budget and submit this budget to the unit owners at least 30 days prior to its adoption. This annual budget is required by State law to include provisions for at least • income; • administration; • maintenance; • utilities; • general expenses; • reserves; and • capital items. This budget has to be adopted at an open meeting of the council of unit owners or any other body to which the council of unit owners delegates responsibilities for preparing and adopting the budget.

Any expenditure made that would result in an increase in an amount of assessments for the current fiscal year of the condominium in excess of 15% of the budgeted amount previously adopted, has to be approved by an amendment to the budget adopted at a special meeting. At least 10 days written notice to the council of unit owners must be provided for this meeting. This requirement does not apply to expenditures because of conditions which, if not corrected, could reasonably result in a threat to the health or safety of the unit owners or a significant risk of damage to the condominium.

The law also states that the adoption of a budget does not impair the authority of the council of unit owners to obligate the council of unit owners for expenditures for any purpose consistent with the law. These provisions of the Maryland Condominium Act do not apply to condominiums occupied and used solely for nonresidential purposes.

Background: Chapter 469 of 2005 established the Task Force on Common Ownership Communities. The full task force met 10 times during 2006 and conducted 5 public hearings, at which public comments were solicited. In addition, subcommittees comprised of task force members met several times. The task force made several recommendations on various topics, including the availability of information on the rights and responsibilities of living in a common ownership community. Although the task force did not specifically address the subject matter of the bill, the task force did state its belief that members of common ownership communities are entitled to disclosure of information from the governing bodies of their communities.
