Local Fiscal Effect: Cecil County revenues could increase by up to \$5.0 million from bond proceeds. Annual debt service costs for the bonds could total approximately \$382,500. The estimate is based on a 4.59% interest rate and a 20-year term of maturity. To the extent that the bond issuance, interest rate, or term of maturity deviate from this assumption, expenditures would adjust accordingly.

At the end of fiscal 2007, Cecil County had approximately \$134 million in outstanding general obligation bonds. While the county does not have a statutory debt limit, two common analytical measures of local debt capacity are debt as a percentage of assessable base and debt per capita. Total obligation bonded debt as a percentage of assessable base for Cecil County is 1.7%, and debt per capita is \$1,348. The county maintains an AA-rating from Standard and Poor's and an Aa3 rating from Moody's Investors Service.
