25 State.

26 7-304.

27 (a) The County Commissioners shall levy, annually, upon the assessable
28 property of the county, at the time for making the county levy, a rate sufficient to pay

30 rate sufficient to pay the State Highway Administration the amount due for lateral
31 roads or other plans for State aid for road purposes, and a rate to be set by the County
32 Commissioners, not to exceed 40 cents on \$100.

33 (b) The tax so levied and collected within the limits of all incorporated towns
34 or cities, together with all other money receivable by Washington County for road and

1 Commissioners may borrow up to \$250,000 in 1 year, on the credit of the county, to be
2 paid out of the road money provided in the next succeeding levy. All bills and claims
3 on account of roads and bridges in the county shall receive the endorsement of the
4 [Road Engineer] **DIRECTOR** before payment and shall be passed upon by the County
5 Commissioners at a regular or adjourned meeting. A bill or claim involving the
6 expenditure of more than \$1,000, and a contract or agreement involving a larger
7 expenditure from the road funds of the county may not be allowed or made except by a
8 majority vote of the County Commissioners.

9 (d) All claims allowed and passed as aforesaid shall be approved by the
10 President and attested by the Clerk of the County Commissioners. When so approved
11 an order for the amount of the claim shall be drawn against the county Tax Collector
12 who shall pay the amount out of the proper funds.

13 7-305.

14 (a) (1) In this section the following words have the meanings indicated.

15 (2) "Special road improvement district" means an area of land in the
16 county which has frontage on a substandard private road in which improvements to
17 the road will be funded from special assessments imposed on all the owners of the land
18 in proportion to the lengths of their respective frontages, designated as a special road
19 improvement district by the County Commissioners.

20 (3) "Private road" means a road not previously accepted into the
21 county road system.

22 (4) "Owners" means owners of property included in the district.

23 (b) The County Commissioners may create special road improvement
24 districts within the confines of the county for the purpose of providing a method of
25 funding the improvement of private roads in the county to county standards prior to
26 acceptance in the county road system. Only land which fronts on the road to be
27 improved shall be included in a district and, of such land, only so much thereof as
28 shall have at least an average depth in one ownership of 100 feet shall be included.

29 (c) The procedures set forth in this subtitle for the creation of a special road
30 improvement district may only be initiated by a petition signed by the owners of the
31 land in the proposed district having over half of the frontage on the road. The petition
32 may be developed and the signatures obtained either by 1 or more of the owners or by
33 the County Commissioners.

34 (d) Upon receipt of a petition or upon their own motion, if the County
35 Commissioners developed and obtained the signatures to the petition, and before a
36 district may be created, the County Commissioners shall:

1 (1) Cause an investigation to be made of the section of road to be
2 improved; the investigation shall include a study of the condition of the road, the
3 width of the [right of way] **RIGHT-OF-WAY**, the ownership and configuration of land
4 fronting on the road, particularly with respect to the frontages and depths of the
5 various tracts adjoining the road, the estimated cost of improving the road and any
6 other matters which the County Commissioners may feel are relevant to the creation
7 of a district; and

8 (2) Cause a public hearing to be held after written notice of the
9 hearing and the purpose thereof has been published 1 time in a newspaper having
10 general circulation in the county and after a copy of the notice has been mailed or
11 delivered to each owner of land in the proposed district. At the hearing, all persons
12 having an interest in the creation of the district shall be heard and be permitted to
13 present any evidence relevant to the person's position in the matter as may be desired.

14 (e) After the public hearing is held, the County Commissioners shall decide
15 whether a special road improvement district shall be created for the area in question,
16 or for part of it, and, if the decision is in favor of the creation of a district, it shall cause
17 a resolution to be passed outlining its boundaries and giving preliminary approval to
18 the land therein as a special road improvement district. Afterwards, the same notice
19 of its decision shall be given to the owners as was given of the public hearing. Any
20 person aggrieved by the decision of the County Commissioners may appeal to the
21 Circuit Court for Washington County within 10 days following receipt of the notice. If
22 no appeal is taken within the period, the action of the County Commissioners shall be
23 final and further appeal may not be taken.

24 (f) Following the decision of the County Commissioners to establish a
25 district, and after the expiration of the appeal period without an appeal being taken,
26 the County Commissioners shall:

27 (1) Cause surveys to be made as well as determine the lengths of the
28 various frontages of land abutting the road to be improved assessable under this
29 section for the improvement of the road;

30 (2) Cause an advertisement for bids for the improvements to the road
31 to be published at least 2 times in 2 successive weeks in some newspaper of general
32 circulation in the county;

33 (3) Cause a notice to be mailed or otherwise delivered to all of the
34 owners of assessable frontage on the road setting forth the names of all the owners,
35 the lengths of their respective assessable frontages, the amount of the lowest
36 responsible bid for the improvements and the individual amounts which the County
37 Commissioners propose to assess as the share of each owner; and

38 (4) Pass a resolution rescinding previously given approval if, within
39 the period of 15 days following the mailing or delivery of the last of the notices
40 provided in paragraph (3) of this subsection, a petition against the creation of the

1 district, signed by over 75 percent of the owners, is received by the County
2 Commissioners; if so received, the district may not be created. If no petition is
3 received by the County Commissioners within the 15-day period, it shall pass a
4 resolution making final the preliminary approval and the district will then be in
5 existence.

6 (g) Following the final creation of the district, the County Commissioners
7 shall bill each of the owners for the amount of the owner's respective share of the costs
8 of the improvements, and the amount of each share shall be a lien against so much of
9 the land and property of each owner as lies within the boundaries of the district in the
10 same manner that real property taxes are liens on the property against which they are
11 assessed. The County Commissioners may collect the shares from each of the owners
12 and, in so doing, have the same powers as now are, or in the future may be, available
13 to them for the collection of real property taxes.

14 (h) All matters relating to the work to be done in improving any private road
15 under the provisions of this section, including scheduling, shall be under the sole
16 control and supervision of the County Commissioners and, in the matter of scheduling
17 them, the County Commissioners may defer the awarding of a contract for the work
18 until all of the shares are collected by them. At no later than the completion of the
19 work, the road shall be accepted into the county road system.
