27 Preamble

EXPLANATION: CAPITALS INDICATE MATTER ADDED TO EXISTING LAW.

[Brackets] indicate matter deleted from existing law.

1 WHEREAS, There exists a state of national recession, which has drastically
2 affected various segments of the Maryland economy, but none as severely as the
3 State's banking, real estate, and construction sectors; and

4 WHEREAS, The real estate finance sector of the economy is in severe decline
5 due to the subprime mortgage problem and the resultant widening mortgage finance
6 crisis; and

7 WHEREAS, The extreme tightening of lending standards for home buyers and
8 other real estate borrowers has reduced access to the capital markets; and

9 WHEREAS, As a result of the crisis in the real estate finance sector of the
10 economy, real estate developers, homebuilders, and commercial, office, and industrial
11 developers have experienced an industry-wide decline, including reduced demand,
12 canceled orders, declining sales, rental price reductions, increased inventory, fewer
13 buyers who qualify to purchase homes, layoffs, and scaled back growth plans; and

14 WHEREAS, The process of obtaining planning board and zoning board
15 approvals for subdivisions, site plans, and variances can be difficult, time consuming,
16 and expensive both for private applicants and government bodies; and

17 WHEREAS, The process of obtaining other government approvals required
18 pursuant to legislative enactments and their implementing rules and regulations can
19 also be difficult and expensive; and

20 WHEREAS, Permits and approvals can be impossible to renew or reobtain if
21 expired or lapsed; and

22 WHEREAS, County and municipal governments obtain determinations of
23 master plan consistency, conformance, or endorsement with State or regional plans,
24 from State and regional government entities that may expire or lapse without
25 implementation due to the state of the economy; and

26 WHEREAS, The current national recession has severely weakened the building
27 industry, and many landowners and developers are seeing their life's work destroyed
28 by the lack of credit and dearth of buyers and tenants due to the crisis in real estate
29 financing and the building industry, uncertainty over the state of the economy, and
30 increasing levels of unemployment in the construction industry; and

31 WHEREAS, The construction industry and related trades are sustaining severe
32 economic losses, and the lapsing of government development approvals would, if not
33 addressed, exacerbate those losses; and

34 WHEREAS, Financial institutions that lend money to property owners,
35 builders, and developers are experiencing erosion of collateral and depreciation of
36 their assets as permits and approvals expire, and the extension of these permits and

1 approvals is necessary to maintain the value of the collateral and the solvency of
2 financial institutions throughout the State; and

3 WHEREAS, Due to the current inability of builders and their purchasers to
4 obtain financing, under existing economic conditions, more and more once-approved
5 permits are expiring or lapsing and, as these approvals lapse, lenders must reappraise
6 and thereafter substantially lower real estate valuations established in conjunction
7 with approved projects, thereby requiring the reclassification of numerous loans
8 which, in turn, affects the stability of the banking system and reduces the funds
9 available for future lending, thus creating more severe restrictions on credit and
10 leading to a vicious cycle of default; and

11 WHEREAS, As a result of the continued downturn of the economy, and the
12 continued expiration of approvals which were granted by State and local governments,
13 it is possible that thousands of government actions will be undone by the passage of
14 time; and

15 WHEREAS, Obtaining an extension of an approval pursuant to existing
16 statutory or regulatory provisions can be costly in terms of time and financial
17 resources, with the costs falling on the public as well as the private sector; and

18 WHEREAS, Obtaining an extension of an approval pursuant to existing
19 statutory or regulatory provisions may be insufficient to cope with the extent of the
20 present financial situation; and

21 WHEREAS, It is the purpose of this Act to prevent the wholesale abandonment
22 of approved projects and activities due to the present unfavorable economic conditions,
23 by tolling the term of these approvals for a period of time, thereby preventing a waste
24 of public and private resources; now, therefore,
