BY adding to  
Article 24 – Political Subdivisions – Miscellaneous Provisions  
Section 23–101 and 23–102 to be under the new title “Title 23. Construction and Development Permits”  
Annotated Code of Maryland  
(2005 Replacement Volume and 2008 Supplement)

Preamble

WHEREAS, There exists a state of national recession, which has drastically affected various segments of the Maryland economy, but none as severely as the State's banking, real estate, and construction sectors; and

WHEREAS, The real estate finance sector of the economy is in severe decline due to the subprime mortgage problem and the resultant widening mortgage finance crisis; and

WHEREAS, The extreme tightening of lending standards for home buyers and other real estate borrowers has reduced access to the capital markets; and

WHEREAS, As a result of the crisis in the real estate finance sector of the economy, real estate developers, homebuilders, and commercial, office, and industrial developers have experienced an industry-wide decline, including reduced demand, canceled orders, declining sales, rental price reductions, increased inventory, fewer buyers who qualify to purchase homes, layoffs, and scaled back growth plans; and

WHEREAS, The process of obtaining planning board and zoning board approvals for subdivisions, site plans, and variances can be difficult, time consuming, and expensive both for private applicants and government bodies; and

WHEREAS, The process of obtaining other government approvals required pursuant to legislative enactments and their implementing rules and regulations can also be difficult and expensive; and

WHEREAS, Permits and approvals can be impossible to renew or reobtain if expired or lapsed; and

WHEREAS, County and municipal governments obtain determinations of master plan consistency, conformance, or endorsement with State or regional plans, from State and regional government entities that may expire or lapse without implementation due to the state of the economy; and

WHEREAS, The current national recession has severely weakened the building industry, and many landowners and developers are seeing their life's work destroyed by the lack of credit and dearth of buyers and tenants due to the crisis in real estate financing and the building industry, uncertainty over the state of the economy, and increasing levels of unemployment in the construction industry; and

WHEREAS, The construction industry and related trades are sustaining severe economic losses, and the lapsing of government development approvals would, if not addressed, exacerbate those losses; and

WHEREAS, Financial institutions that lend money to property owners, builders, and developers are experiencing erosion of collateral and depreciation of their assets as permits and approvals expire, and the extension of these permits and

approvals is necessary to maintain the value of the collateral and the solvency of financial institutions throughout the State; and

WHEREAS, Due to the current inability of builders and their purchasers to obtain financing, under existing economic conditions, more and more once-approved permits are expiring or lapsing and, as these approvals lapse, lenders must reappraise and thereafter substantially lower real estate valuations established in conjunction with approved projects, thereby requiring the reclassification of numerous loans which, in turn, affects the stability of the banking system and reduces the funds available for future lending, thus creating more severe restrictions on credit and leading to a vicious cycle of default; and

WHEREAS, As a result of the continued downturn of the economy, and the continued expiration of approvals which were granted by State and local governments, it is possible that thousands of government actions will be undone by the passage of time; and

WHEREAS, Obtaining an extension of an approval pursuant to existing statutory or regulatory provisions can be costly in terms of time and financial resources, with the costs falling on the public as well as the private sector; and

WHEREAS, Obtaining an extension of an approval pursuant to existing statutory or regulatory provisions may be insufficient to cope with the extent of the present financial situation; and

~~WHEREAS, It is the purpose of this Act to prevent the wholesale abandonment of approved projects and activities due to the present unfavorable economic conditions, by tolling the term of these approvals for a period of time, thereby preventing a waste of public and private resources; now, therefore,~~

SECTION 1. BE IT ENACTED BY THE GENERAL ASSEMBLY OF MARYLAND, That the Laws of Maryland read as follows:
