10 Preamble

11 WHEREAS, Obesity leads to at least 300,000 deaths among adults in the  
12 United States each year due in part to physical inactivity and a poor diet; and

13 WHEREAS, Inadequate participation in physical activity is a significant  
14 contributor to the “epidemic of obesity” that has plagued the nation’s young people  
15 during the past two decades; and

16 WHEREAS, Physical activity offers young people many health benefits,  
17 including improving aerobic endurance and muscular strength, helping to control  
18 weight, building lean muscle and reducing fat, and helping to build greater bone mass,  
19 all of which thwart the development of osteoporosis in adulthood and prevent or  
20 reduce high blood pressure; and

21 WHEREAS, A growing body of evidence suggests that providing students with  
22 more physical education and physical activity opportunities helps reduce the cost  
23 schools incur by reducing absenteeism, improving student health, and reducing staff  
24 time spent addressing academic performance; and

25 WHEREAS, A growing body of evidence also suggests that improvement in test  
26 scores and overall academic achievement can be linked to increased time in physical  
27 education; and

28 WHEREAS, The National PTA considers “Early Physical Education” a “Parent  
29 Priority” and urges its members to promote physical education in the schools; now,  
30 therefore,
