10. Description and Purpose of Grantee Organization (Limit Length to Visible area)

For almost 50 years The Ivymount School, a non-profit, non-public MSDE certified special education school, has developed model educational and therapeutic programs to meet the specific and complex learning and developmental challenges of children, adolescents and young adults with multiple special needs including communication disorders, cognitive deficits, health impairments, and autism. Students are funded by local school systems. Ivymount's mission is to offer a model, creative, multicultural, non-biased learning environment where all students can achieve their highest level of development; support families in their efforts to make intelligent, thoughtful choices for their children; and, maintain a leadership role in the community and the broad field of special education so that Ivymount's considerable expertise is widely available. Located in Rockville, MD, Ivymount currently serves 215 students, ages 4 – 21, from Montgomery County and the surrounding area. These students represent broad socio-economic diversity and educational challenges that require intensive and specialized programs and services.

11. Description and Purpose of Project (Limit Length to Visible area)

In response to growing program needs Ivymount School has developed a phased Master Plan/ Capital Project to expand the current school building located at 11614 Seven Locks Road and, as Phase One, to renovate and expand the Annex Building (11616) on the property. The annex building was purchased by Ivymount with the vision that it could be used for program expansion needs. Phase One of the project is budgeted at \$1.2 million. The overall phased Master Plan is projected at \$7 million. The overall Master Plan has been developed to renovate and expand both the Ivymount School property and the Annex to provide: • A High School for the Model Asperger Program with classrooms, and science, technology and library facilities; • A Young Adult Community Education Center which will feature instructional and social areas for 30-40 students now in the school's Post High School Program; • Expanded vocational centers to include culinary, printing/mailing and greenhouse training opportunities; • Expanded space for early intervention programs at The Maddux School;

Phase One is the first step in meeting these goals. This project will renovate the existing 2,700 square feet of building space of the annex and expand the facility by adding 1,900 square feet.

Round all amounts to the nearest \$1,000. The totals in Items 12 (Estimated Capital Costs) and 13 (Proposed Funding Sources) must match. The proposed funding sources must not include the value of real property unless an equivalent value is shown under Estimated Capital Costs.

Circumstances of Ivymount Properties and Project

Ivymount School has leased the former Georgetown Hills Elementary School in Rockville Maryland from Montgomery County Department of Facilities since 1985. As a condition of the lease with Montgomery County, Ivymount is required to lease 2,700 square feet to a child care facility, like our current tenant Montgomery Child Care Association-Beverly Farms (MCCA-Beverly Farms).

With the expanding needs of the Ivymount School programs, in September 2007, Ivymount School purchased the property adjacent to the Ivymount campus (11616 Seven Locks Road), now known as the annex, with the intent of renovating the property to expand Ivymount programs (educational use) or use the space for relocating our tenant, MCCA-Beverly Farms. Under the terms of our sublease with MCCA-Beverly Farms, Ivymount has the right to terminate the sub-lease and request that the tenant vacate the property with 2 years notice. Ivymount exercised that option in September of 2009. After deliberation with Montgomery County and the neighborhood, it was determined that requesting MCCA-Beverly Farms vacate the property was not in the best interest of either Ivymount School, MCCA-Beverly Farms or the neighborhood. The letter of termination is in the process of being rescinded.

After much planning, Ivymount School solicited and received a special exception for educational use for the annex. According to the Montgomery County zoning regulations, we recently learned that MCCA-Beverly Farms, because it is child care, would not qualify under the educational use of the special exception.

Ivymount requested assistance from the County attorney to determine how MCCA-Beverly Farms could occupy the property under the educational use special exception. It was determined that in order to have MCCA-Beverly Farms occupy the annex, the property would need to be either government owned or leased. Ivymount and the County government are presently in negotiations to determine if a county purchase is an option.

If Montgomery County agrees to purchase the property, Ivymount would lease the property back from the County, as we presently do on the Ivymount campus, and then Ivymount would either sublease it to MCCA-Beverly Farms or move one of the Ivymount programs to the annex, leaving MCCA-Beverly Farms in there current location.

If Montgomery County is not able to purchase the property, Ivymount would move one of our programs into the annex and MCCA-Beverly Farms would remain in their currently location under the current sublease.
