10. Description and Purpose of Grantee Organization (Limit Length to Visible area)					
<p>GreenSpaceOnGeorgia.org is a civic group representing over several hundred Wheaton residents that live near the former School of Art and Design at Montgomery College (MCAD) property. Almost 3 years ago, GreenSpaceOnGeorgia.org conducted a door-to-door petition drive and collected approximately 580 signatures of residents that are directly impacted by the MCAD property. These residents live in Plyers Mill Crossing, Carroll Knolls, or McKenney Hills communities. These residents overwhelming support the creation of much need parkland at MCAD instead of a proposed townhouse development. Subsequently, the contingent sales agreement the College had with a townhouse developer has expired. Townhouses cannot be built on the MCAD property because the Carroll Knolls community fought and won a long drawn out legal battle against the developer to keep their 1948 restrictive covenants which do not permit a townhouse complex in their single family home community. In the communities' opinion, the best land use for the MCAD property is public parkland which would provide adults and children on this side of Georgia safe access to much needed parkland.</p>					

11. Description and Purpose of Project (Limit Length to Visible area)

Requested funding is to aid three Wheaton communities (Carroll Knolls, Plyers Mill Crossing, and McKenney Hills) in saving the former School of Art and Design at Montgomery College (MCAD) property as much needed parkland. This funding would be used for the demolition and removal of the roughly 14,000 sq ft MCAD building which has been vacant for over 2.5 years in our community. The building has been heavily vandalized and encourages criminal behavior.

Round all amounts to the nearest \$1,000. The totals in Items 12 (Estimated Capital Costs) and 13 (Proposed Funding Sources) must match. The proposed funding sources must not include the value of real property unless an equivalent value is shown under Estimated Capital Costs.

28. Comments: (Limit Length to Visible area)

Saving the MCAD property as public parkland is supported by the M-NCPPC Parks Department as well as scores of residents, civic groups, and elected officials. We are grateful for the opportunity to request state funding to aid us in our goal. If MCAD is not saved, it will have a direct negative impact on literally several hundred Wheaton residents who have limited natural resources on the west side of Georgia Ave. The closest park, Evans Parkway Park, involves crossing Georgia with no light nor crosswalk at Evans and Georgia. The two closest intersections with a light are Dennis Ave and Georgia Ave and Plyers Mill Road and Georgia Ave. As you all are painfully aware, even with a light, crossing Georgia is very unsafe and possibly fatal for pedestrians especially for children. Saving MCAD would ensure safe nearby access to parkland for 3 Wheaton communities, and it would be a roughly 4 acre property that would serve as a converging point for three communities to meet and interact.

It should be noted at the time of this funding request that it is GreenSpaceOnGeorgia.org's opinion that MCAD is public land that was wrongly given away for free. The public Montgomery College gave MCAD to its private Montgomery College Foundation in 2005 for \$0. Yes, \$0, after using ~ \$2M of taxpayer money to run MCAD as a school. Upon acquiring MCAD for free, the Foundation promptly entered into a contingent sales agreement with KAZ development to build 27 townhouses, 3 single family homes, and a private road with cul-de-sac. All current green space that has been utilized by the community since the late 1960s would have been in effect obliterated. As mentioned earlier in this fact sheet, the Carroll Knolls community fought and won a long legal battle to keep their private 1948 covenants that do not allow a townhouse development in their community. Additionally, M-NCPPC Legacy Open Space staff recommended to the Planning Board that MCAD be saved as a LOS site. The Planning Board in 1/08 ruled 3 to 0 against MCAD's LOS designation. This past Fall, three County Councilmembers (Valerie Ervin, Marc Elrich, and Nancy Navarro) requested that the Planning Board reconsider MCAD for LOS funding. The Planning Board Chairman did not grant the request. Montgomery College representatives have directly told several residents that they have no interest in the property and want to sell it immediately to whomever at a price of their choosing. The communities would very much appreciate the State's support in figuring out a way to fund the saving of the MCAD property. We also request that consideration be made by State officials to speak with the College about how its Foundation acquired the MCAD property to begin with, and we suggest that officials request that the MCAD property be returned to the County for public parkland.

Thanks for your time and help.

Sincerely,
Beverly Sobel
President, GreenSpaceOnGeorgia.org
