10. Description and Purpose of Grantee Organization (Limit Length to Visible area)				
<p>South Village Homes Corporation - based in Montgomery County, MD, South Village Homes Corporation is a 501(c)4 corporation dedicated to the maintenance of land and common facilities within its community borders. The grantee also maintains a number of public access facilities including streets, common area lighting, security, trash collection, and maintenance of lands and landscape. The grantee maintains a public use area of approximately 2.5 acres in a parcel adjacent to the body of water known as Lake Whetstone.</p>				

11. Description and Purpose of Project (Limit Length to Visible area)

The grantee maintains a public use area of approximately 2.5 acres in a parcel adjacent to the body of water known as Lake Whetstone. This area has been under pressure from increased activity in the adjacent public park and recreational facility, and has suffered in both the quality and quantity of plant materials necessary to support both public use and to provide cover for local wildlife (the Lake Whetstone park is operated in part as a "natural area" for the surrounding developed community). Erosion and loss of bio-diversity has become an increasing problem. The proposal remedies are to (1) amend and if necessary (2) add soil materials, followed by (3) regrading and (4) replanting with environmentally friendly planting that unlike the remaining grass margins, can survive a wide variety of conditions [sun, drought, etc.] with minimal maintenance while offering wildlife stable cover and protection.

Round all amounts to the nearest \$1,000. The totals in Items 12 (Estimated Capital Costs) and 13 (Proposed Funding Sources) must match. The proposed funding sources must not include the value of real property unless an equivalent value is shown under Estimated Capital Costs.
