

Department of Legislative Services
2010 Session

FISCAL AND POLICY NOTE

House Bill 763

(Delegate Montgomery, *et al.*)

Environmental Matters

Real Property - Restrictions - Clotheslines or Other Similar Laundry Drying Devices

This bill prohibits any contract, deed, covenant, lease, or other similar residential governing document from banning the use of clotheslines or other similar laundry drying devices on the property of a homeowner or tenant. Reasonable restrictions relating to the timing, placement, and the manner of use are permitted.

The bill applies to any single-family residential dwelling or townhome, including rental properties, mobile home parks, condominiums, homeowners associations, time-shares, and cooperatives. The bill's provisions do not apply, however, to a building with more than four dwelling units that is used exclusively for rental purposes.

The bill has retroactive application to existing residential governing documents.

Fiscal Summary

State Effect: If the Consumer Protection Division of the Office of the Attorney General receives fewer than 50 complaints per year stemming from the bill, the additional workload can be handled with existing resources.

Local Effect: The bill does not directly affect local finances or operations.

Small Business Effect: None.

Analysis

Bill Summary: Prior to adopting any rules or regulations relating to the timing, placement, and manner of use of a clothesline or other similar drying device, the governing body of a condominium, homeowners association, housing cooperative, or a

landlord must hold an open meeting to allow affected homeowners and tenants to comment on the proposed rules. Advance notice of the time and the place of the meeting must be published in a community newsletter, on a community bulletin board, by the means provided in the governing document or the lease, or by any other means reasonably calculated to inform the affected homeowners and tenants.

Current Law: State law does not limit the authority of common ownership communities or landlords to limit by contract, deed, or other written instrument the installation or use of clotheslines.

Background: According to the U.S. Department of Energy, appliances account for 17% of the average household’s energy consumption, with refrigerators, clothes washers, and clothes dryers among the highest users of electricity. As of October 2009, State residents paid an average of 14.9 cents per kilowatt hour of electricity (kWh). Assuming a typical (non-EnergyStar certified) clothes dryer uses approximately 800 kWh of energy per year, the average Maryland household pays \$112 in annual utility costs to operate a clothes dryer.

As shown in **Exhibit 1**, the U.S. Energy Information Administration estimates that U.S. households owned 61 million electric clothes dryers in 2001, which consumed 66 billion kWh and accounted for 5.8% of total national energy consumption.

Exhibit 1
Electricity Consumption by End Use in U.S. Households in 2001

	<u>U.S. Households (in Millions)</u>	<u>Total Energy Consumption (Billion kWh)</u>	<u>Percent of Total U.S. Household Energy Consumption</u>
Clothes Washers	84.1	10.1	0.9%
Clothes Dryers	61.1	65.9	5.8%

Source: U.S. Energy Information Administration

A goal of the Governor’s “EmPOWER Maryland” initiative is to reduce State energy consumption 15% by 2015. As part of this effort, the Maryland Energy Administration encourages Maryland residents to adopt cost-effective energy savings measures in their homes.

Colorado, Florida, Hawaii, Maine, Utah, and Vermont have enacted various laws protecting the rights of homeowners to use clotheslines, and three other states (North Carolina, Oregon, and Virginia) are considering similar legislation.

Additional Information

Prior Introductions: Similar bills were introduced during the 2009 session. SB 559 received an unfavorable report from the Senate Judicial Proceedings Committee. Its cross file, HB 443, received an unfavorable report from the House Environmental Matters Committee.

Cross File: SB 224 (Senator King, *et al.*) - Judicial Proceedings.
