**11. Description and Purpose of Project** (Limit Length to Visible area)

The Garrett-Jacobs Mansion Endowment Fund seeks to restore and enhance the Mansion Ballroom returning it to its original condition of 1913 when it was completed by Mrs. Garrett. The Fund is actively pursuing use of the space by small performing arts groups in Maryland who cannot afford venue rentals or are struggling due to the current economic conditions. The Ballroom is an important room for catered events that provide income for operations with all retained earnings being used for restoration of the historic structure. The 29x70 foot room has not received any serious attention since 1939 when it ceased to be a private home. The detailed craftsmanship and artistry of the room is sorely in need of restoration. The ceiling and corners of the room are still graced with oil paintings (now very dirty) in elaborate Regency frames. The woodwork is broken in places and the gilding is chipped away. The decorative plaster is cracked, chipped and broken. The floor requires refinishing and the hardware fixtures need rehabilitation. The damask-covered walls are faded from a deep rose to a pale pink with deteriorated batting. The artwork needs to be restored and the stage facilities are not at performance standards. This project is broken into four phases lasting approximately four years. Phase 1 was materially completed in January 2010.

Stewardship & Preservation: The GJMEF and Engineering Society of Baltimore have been conscientious stewards of the Garrett-Jacobs legacy, taking ownership of the vacant and deteriorating mansion from the City of Baltimore in 1962, after its near demolition in the 1950's. Now preserved as the best representation of Mount Vernon's 19th century architectural legacy, it is a contributing structure to the Mount Vernon Place Historic District; a National Historic Landmark and an anchor of the West Park.

Cultural Enrichment: The Mansion enhances the value and impact of the State's and Baltimore City's heritage and cultural resources. There is a growing need to provide performance venue options for small, struggling performing arts groups. The GJMEF desires the Mansion to become such a venue and encourages appropriate use by such groups thereby strengthening the underpinning of arts in the region.

Stable Employment: The Mansion and the Club strengthen hospitality as an economic growth sector. An economic impact study was done in 2007 by the Jacob France Institute which concluded that the Mansion generates almost \$250,000 in State and local tax revenue and \$1.3 million in compensation for employees.

Neighborhood Stabilization: The Mansion stabilizes Mount Vernon Place in Baltimore City. The Mansion is the only business open to the public and is continuously active on the west side of Mount Vernon Place. Its busy event schedule and pedestrian traffic contributes to a safe, busy and people-friendly area. This vitality is an attraction to the neighborhood. The State Department of Housing and Community Development recognized its importance awarding the Mansion funding to provide handicapped access to the lower levels of the building.

Ensuring Public Benefit: The Garrett-Jacobs Mansion Endowment Fund was created in 1992 by The Engineering Society of Baltimore to plan and finance preservation and restoration work. The Society owns the building and has been a careful and faithful steward since 1962. Public access via tours, programming, events and concerts is facilitated by the Endowment Fund.

The Mansion does have an historical easement with MHT and the State of Maryland effective January 2009. The form would not allow us to indicate this in the box provided.
