

Department of Legislative Services
Maryland General Assembly
2010 Session

FISCAL AND POLICY NOTE

Senate Bill 669

(Senator Peters)

Budget and Taxation

Creation of a State Debt - Prince George's County - Marlboro Meadows Senior Center

This bill authorizes the issuance of general obligation bonds to provide a grant to a recipient for the acquisition, planning, design, construction, expansion, repair, restoration, renovation, reconstruction, or capital equipping of a specified facility.

Fiscal Summary

State Effect: This grant will be part of the total general obligation debt authorization for FY 2011. The Spending Affordability Committee (SAC) recommended a general obligation debt authorization of \$1.14 billion for FY 2011. The proposed State budget as introduced assumes general obligation debt authorizations totaling \$1.41 billion, including \$146.9 million preauthorized for FY 2011 in the 2009 session capital budget bill (Chapter 485 of 2009). The additional \$27 million over the SAC recommendation will come from the de-authorization of prior year authorizations. State debt service costs on \$1.41 billion would be a maximum of \$119.7 million annually based on an interest rate of 5%. The State last sold bonds in February 2010, and those bonds bear the single-coupon rate of 5% over 15 years.

Local Effect: None, unless the recipient is a local government.

Small Business Effect: None.

Analysis

The bills listed below authorize the issuance of general obligation bonds to provide grants to various recipients for the acquisition, planning, design, construction, expansion, repair, restoration, renovation, reconstruction, or capital equipping of various facilities.

Most bills require either a hard or soft match as noted. Where no match is required the term “grant” is indicated. A hard match means the recipient provides a dollar-for-dollar match of the State funds and does not expend the matching funds until after the effective date of the authorizing act. A soft match is any other type of match. Soft matches include the use of the value of the real property as the match, in-kind contributions such as materials or construction services, or funds expended prior to the effective date of the bill. A match key is provided immediately below the list of projects.

The list is organized into two categories: statewide bond bills, and local bond bills. Within the local bond bill category the projects are sorted first by the county in which the project is located and then alphabetically by project title. Most projects have both a House and a Senate bill.

As introduced by the Governor, the Maryland Consolidated Capital Bond Loan (MCCBL) of 2010, referred to as the capital budget, earmarks \$15 million for legislative initiatives. However, because the General Assembly can both reduce and add to the capital budget, the budget committees may consider bond bill requests during the 2010 session in excess of the amount earmarked in the MCCBL as introduced by the Governor.
