**11. Description and Purpose of Project** (Limit Length to Visible area)

This affordable housing and service model is at risk of failure and is not sustainable without additional funding. Currently the physical plant needs greatly exceeds the cash reserves of this 21 year old property.

This grant will subsidize the replacement of 3 chillers, main kitchen equipment along with grease trap replacement for WSSC compliance, provide updated light fixtures, improved insulation, water saving toilets, new apartment refrigerators. These items have been identified in need of replacement by a contracted energy audit.

In addition we need to replace dated the dining room chairs, public area flooring and carpeting, apartment kitchen cabinets, and replace damaged exterior doors and stair well heaters. If there are sufficient funds we would convert a room into a fitness room for the seniors.

The property is clearly dated with 21 year old equipment. We are ready to proceed with all projects. These projects will create jobs.

*Round all amounts to the nearest \$1,000. The totals in Items 12 (Estimated Capital Costs) and 13 (Proposed Funding Sources) must match. The proposed funding sources must not include the value of real property unless an equivalent value is shown under Estimated Capital Costs.*
