3 (a) (1) (i) In this section and § 7–208 of this subtitle, “construction”
4 means:

5 1. any physical change at a site, including fabrication,
6 erection, installation, or demolition; or

7 2. the entry into a binding agreement or contractual
8 obligation to purchase equipment exclusively for use in construction in the State or to
9 undertake a program of actual construction in the State which cannot be canceled or
10 modified without substantial loss to the owner or operator of the proposed generating
11 station.

12 (ii) “Construction” does not include a change that is needed for
13 the temporary use of a site or route for nonutility purposes or for use in securing
14 geological data, including any boring that is necessary to ascertain foundation
15 conditions.

16 (2) In this section, “qualified generator lead line” means an overhead
17 transmission line that is designed to carry a voltage in excess of 69,000 volts and
18 would allow an out-of-state Tier 1 or Tier 2 renewable source to interconnect with a
19 portion of the electric system in Maryland that is owned by an electric company.

20 (b) (1) (i) Unless a certificate of public convenience and necessity for
21 the construction is first obtained from the Commission, a person may not begin
22 construction in the State of:

23 1. a generating station; or

24 2. a qualified generator lead line.

25 (ii) If a person obtains Commission approval for construction
26 under § 7–207.1 of this subtitle, the Commission shall exempt a person from the
27 requirement to obtain a certificate of public convenience and necessity under this
28 section.

29 (iii) Notwithstanding subparagraph (i) of this paragraph, a
30 person may not apply to obtain a certificate of public convenience and necessity for
31 construction of a qualified generator lead line unless:

32 1. at least 90 days before the filing of an application for
33 a certificate of public convenience and necessity, the person had in good faith offered
34 the electric company that owns that portion of the electric grid in Maryland to which

1 the qualified generator lead line would interconnect a full and fair opportunity for the
2 electric company to construct the qualified generator lead line; and

3 2. at any time at least 10 days before the filing of an
4 application for a certificate of public convenience and necessity, the electric company:

5 A. did not accept from the person a proposal or a
6 negotiated version of the proposal under which the electric company would construct
7 the qualified generator lead line; or

8 B. stated in writing that the electric company did not
9 intend to construct the qualified generator lead line.

10 (2) Unless a certificate of public convenience and necessity for the
11 construction is first obtained from the Commission, and the Commission has found
12 that the capacity is necessary to ensure a sufficient supply of electricity to customers
13 in the State, a person may not exercise a right of condemnation in connection with the
14 construction of a generating station.

15 (3) (I) [Unless] **EXCEPT AS PROVIDED IN PARAGRAPH (4) OF**
16 **THIS SUBSECTION, UNLESS** a certificate of public convenience and necessity for the
17 construction is first obtained from the Commission, an electric company may not begin
18 construction of an overhead transmission line that is designed to carry a voltage in
19 excess of 69,000 volts or exercise a right of condemnation with the construction.

20 (II) **THE COMMISSION MAY WAIVE THE REQUIREMENT IN**
