Analysis

Current Law: The Frederick County Board of License Commissioners may issue a Class B beer, wine, and liquor license to a restaurant which:

- serves full-course meals at least twice daily;
- has a regular seating capacity at tables (not including seats at bars or counters) for 50 or more people;
- is operated in a physical plant having an assessed value of not less than \$40,000, and personal property with an assessed value of not less than \$5,000. This license in a restaurant permits sales for consumption on the premises on which meals are prepared and served, except in the case of beverages with an alcoholic content of not more than 14.5 percent by volume, which may be sold for off-premises consumption; and
- the area of the licensed premises normally used as a restaurant for the preparation and consumption of food and beverages on the premises may occupy no less than 80% of the square foot area, except for recreational use premises such as bowling alleys and pool halls. This provision does not apply to or affect any licensee that had a Class B beer, wine, and liquor license on December 31, 1993, or to any person who has a permit for a building that was under construction on that date.

The annual license fee is \$1,500 for a restaurant.

Background: There are currently 133 Class B beer, wine, and liquor licenses issued in Frederick County.
