Department of Legislative Services

Maryland General Assembly 2012 Session

FISCAL AND POLICY NOTE

Senate Bill 933
Budget and Taxation

(Howard County Senators)

Creation of a State Debt - Howard County - Carroll Baldwin Hall Ho. Co. 1-12

This bill authorizes the issuance of general obligation bonds to provide a grant to a recipient for the acquisition, planning, design, construction, expansion, repair, restoration, renovation, reconstruction, or capital equipping of a specified facility.

Fiscal Summary

State Effect: This grant will be part of the total general obligation (GO) debt authorization for FY 2013. The Spending Affordability Committee (SAC) recommended a general obligation debt authorization of \$1.075 billion for FY 2013. This bill provides general obligation debt authorizations totaling \$1.113 billion. The additional \$37.8 million over the SAC recommendation comes from the deauthorization of prior year authorizations for projects which are now completed or cancelled. State debt service is estimated to cost \$52.7 million annually based on an average coupon rate of 4.435%. The State last sold bonds on July 28, 2011, and those bonds were sold in separate series with interest rates ranging from 2.0% to 5.0% with a combined true interest cost of 4.435% over 15 years. Actual annual debt service cost will be determined by the true interest costs achieved at the time the bonds are issued.

GO bonds authorized in a given year are not all issued the year in which they are authorized. The State Treasurer's Office estimates that just over half of the GO bonds authorized in a year are typically issued within the first two fiscal years. The Capital Debt Affordability Committee (CDAC) assumes bonds authorized in a given year will be fully issued over five years; specific issuances are 31% in the first year, 25% in the second year, 20% in the third year, 15% in the fourth year, and 9% in the fifth year. This delay in issuance results in a substantial lag between the time GO bonds are authorized and the time the bonds affect debt outstanding and debt service levels.

Local Effect: None, unless the recipient is a local government.

Small Business Effect: None.

Analysis

The bills listed below authorize the issuance of general obligation bonds to provide grants to various recipients for the acquisition, planning, design, construction, expansion, repair, restoration, renovation, reconstruction, or capital equipping of various facilities.

Most bills require either a hard or soft match as noted. Where no match is required the term "grant" is indicated. A hard match means the recipient provides a dollar-for-dollar match of the State funds and does not expend the matching funds until after the effective date of the authorizing act. A soft match is any other type of match. Soft matches include the use of the value of the real property as the match, in-kind contributions such as materials or construction services, or funds expended prior to the effective date of the bill. A match key is provided immediately below the list of projects.

The list is organized into two categories: statewide bond bills, and local bond bills. Within the local bond bill category the projects are sorted first by the county in which the project is located and then alphabetically by project title. Most projects have both a House and a Senate bill.

As introduced by the Governor, the Maryland Consolidated Capital Bond Loan (MCCBL) of 2012, referred to as the capital budget, earmarks \$15 million for legislative initiatives. However, because the General Assembly can both reduce and add to the capital budget, the budget committees may consider bond bill requests during the 2012 session in excess of the amount earmarked in the MCCBL as introduced by the Governor.
