**28. Comments: (Limit Length to Visible area)**

It is important to know that all the new schools built in Anne Arundel County already have this technology in place. Our school was built in 1994. With budget constraints, we felt it is unlikely the Board of Education would be outfitting our school with this technology in the near future. As parents, we feel strongly that it is important for our children to have equal access to the technology that other schools have. The members of our PTA believe that the children of our community deserve a quality education and we have worked hard to bring this dream to fruition. We respectfully ask for your support.
