## Analysis

**Current Law:** USM must gain legislative approval to use academic revenue bond (ARB) proceeds for certain capital improvements projects at academic facilities.

**Background:** The maximum aggregate principal amount of bonds that USM may issue was increased by \$200.0 million, from \$1.200 billion to \$1.400 billion by Chapter 357 of 2011. This bill does not affect the cap on bond principal; it only authorizes the issuance of bonds within the existing limit for specific capital projects.

The Governor's fiscal 2013 CIP proposes \$32.0 million in ARBs annually in fiscal 2013 to 2017. The fiscal 2012 CIP projected \$27.0 million in ARBs annually. The Capital Debt Affordability Committee approved a \$5.0 million annual increase in USM ARB authorizations in its 2011 final report. The proposed fiscal 2013 capital budget includes \$32.0 million in ARBS: \$17.0 million for facilities renewal projects budgeted within the USM system office; \$10.0 million for the new Science and Technology Center at Coppin State University; and \$5.0 million for campuswide building system and infrastructure improvements at the University of Maryland, College Park.

**State Fiscal Effect:** USM revenues and expenditures from bond proceeds increase by \$32.0 million in fiscal 2013. The revenues and expenditures are included in the proposed fiscal 2013 capital budget. Beginning in fiscal 2014, higher education expenditures to pay debt service on the revenue bonds increase by an estimated \$2.7 million annually for 20 years.
