FISCAL AND POLICY NOTE

Senate Bill 347

(Senator Klausmeier)(By Request - Baltimore County
Administration)

Judicial Proceedings

Environmental Matters

Vehicle Laws - Registration Plates for Individuals with Disabilities - Parking in
Baltimore County

This bill specifies that the holder of special registration plates for individuals with disabilities may park in a designated zone for the handicapped established by Baltimore County on a county highway for only the amount of time specified for that parking zone.

Fiscal Summary

State Effect: General fund revenues increase minimally beginning in FY 2013 due to the application of existing misdemeanor penalties to violations of the bill and for court costs collected by the District Court. District Court workloads and expenditures are not materially affected assuming the annual number of violations is minimal. Transportation Trust Fund revenues may increase negligibly beginning in FY 2013 due to the collection of \$30 administrative flag removal fees associated with the nonpayment of parking tickets resulting from enforcement of the bill.

Local Effect: The bill is not anticipated to materially affect Baltimore County operations or finances.

Small Business Effect: None.

Analysis

Current Law: The Motor Vehicle Administration may provide a special disability registration number and plates to the owner of a vehicle who submits satisfactory proof of specified physical disabilities. A licensed physician, certified nurse practitioner,

chiropractor, optometrist, or podiatrist must certify that the vehicle owner has a cardiovascular, lung, ambulatory, visual, or other specified disability in accordance with the Maryland Vehicle Law.

The holder of special disability registration plates is afforded specified parking privileges including the authorization to generally park for unlimited periods in parking zones restricted as to the length of parking time permitted. However, exceptions to this general privilege include a restriction for parking in a metered space (1) for only twice the maximum time period permitted, not to exceed a maximum of four hours; or (2) for the maximum authorized period of time if the parking meter permits parking for more than four hours. Additionally, at any State-owned airport, the individual may park in a designated zone for the handicapped for only the time period in the posted time restriction.

These privileges within the Maryland Vehicle Law supersede any local ordinance, except that they do not apply (1) to zones where stopping, standing, or parking is prohibited for all vehicles; (2) to zones that are reserved for special types of vehicles; (3) where there is a local ordinance that prohibits parking during heavy traffic periods in morning, afternoon, or evening rush hours; or (4) where parking clearly would present a traffic hazard.

A violation of these privileges or other provisions pertaining to the use of special disability registration plates in parking zones is a misdemeanor and, on conviction, subjects the offender to a fine of up to \$500.

Background: Baltimore County has established designated parking for holders of special disability registration plates outside of the county courthouse and several other important public buildings. However, the county advises that, currently, certain special disability registration plate holders park in the designated spaces for many hours at a time, often precluding the use of those parking spaces by other eligible individuals.
