Analysis

Current Law: Each county board of education must provide, within three months after the close of the fiscal year, an annual audit of its financial transactions and accounts. The audit must be prepared by a certified public accountant or a partnership of certified public accountants who are licensed by the State Board of Public Accountancy, and approved by the State Superintendent of Schools.

The audit must be made in accordance with the standards and regulations adopted by the State Board of Education. The results of the audit, including the letter of

recommendation submitted by the auditor, are a matter of public record, and must be reported on the form and in the manner requested by the State Board of Education to:

- the State Superintendent of Schools;
- the county fiscal authority;
- the Joint Audit Committee of the General Assembly;
- the Senate Budget and Taxation Committee;
- the Senate Education, Health, and Environmental Affairs Committee;
- the House Appropriations Committee; and
- the House Ways and Means Committee.

At the request of the Maryland State Department of Education (MSDE), a county board of education must conduct an audit to ensure they are properly reimbursing the State for pension contributions made on behalf of their employees, and that State payments for retirement contributions are in accordance with State pension law. Audits conducted for this purpose may be included with or conducted in conjunction with other existing audit requirements under State or federal law, or they may be conducted independently.

In addition to the above requirements, the county commissioners or county council may conduct an audit using auditors employed by the county.

Background: The fiscal 2011 audit report for the Calvert County Public School System was received by the MSDE audit office on October 17, 2011.
