2012 Session

### FISCAL AND POLICY NOTE

House Bill 1129 Ways and Means (Delegates Krebs and Walker)

#### **Fairness in Taxation for Retirees Act**

This bill expands the existing State pension exclusion subtraction modification by allowing income from the following plans to be included within the subtraction modification: individual retirement accounts and annuities under Section 408 of the Internal Revenue Code (IRC); Roth individual retirement accounts under Section 408(a) of the IRC; simplified employee pensions under Section 408(k) of the IRC; and ineligible deferred compensation plans under Section 457(f) of the IRC.

The bill takes effect July 1, 2012, and applies to tax year 2012 and beyond.

## **Fiscal Summary**

**State Effect:** General fund revenues decrease by at least \$22.9 million in FY 2013, which represents the impact of one and one-half tax years. Future year revenue estimates reflect annualization, the estimated number of eligible taxpayers, and additional income subtracted as provided by the bill. Expenditures are not affected.

(\$ in millions)	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017
GF Revenue	(\$22.9)	(\$15.9)	(\$16.4)	(\$16.9)	(\$17.4)
Expenditure	0	0	0	0	0
Net Effect	(\$22.9)	(\$15.9)	(\$16.4)	(\$16.9)	(\$17.4)

Note:() = decrease; GF = general funds; FF = federal funds; SF = special funds; - = indeterminate effect

**Local Effect:** Local income tax revenues decrease by \$15.3 million in FY 2013 and by \$11.6 million in FY 2017. Expenditures are not affected.

**Small Business Effect:** None.

### **Analysis**

Current Law\Background: Maryland law provides a pension exclusion (in the form of a subtraction modification) for individuals who are at least 65 years old or who are totally disabled. Under this subtraction modification, up to a specified maximum amount of taxable pension income (\$26,300 for 2011) may be exempt from tax. The maximum exclusion allowed is indexed to the maximum annual benefit payable under the Social Security Act and is reduced by the amount of any Social Security payments received (Social Security offset).

The "Social Security offset" is the reduction in the maximum pension exclusion allowed under current law for an individual. The Social Security offset was established at the same time as the pension exclusion. Given that Social Security benefits are exempt from Maryland income tax, the offset works to equalize the tax treatment of individuals who receive their retirement benefits from different sources by reducing the amount of the allowable exclusion by the amount of any Social Security benefits received.

One significant feature of the current pension exclusion is that it is limited to income received from an "employee retirement system." Eligible employee retirement systems are retirement plans established and maintained by an employer for the benefit of its employees and qualified under sections 401(a), 403, or 457(b) of the IRC. These include defined benefit and defined contribution pension plans, 401(k) plans, 403(b) plans, and 457(b) plans. However, individual retirement arrangements (IRAs), Keogh plans, and simplified employee pension plans are not considered employee retirement systems.

In addition to the special treatment of Social Security and other retirement income, additional income tax relief is provided to senior citizens regardless of the source of their income. Each individual age 65 and older is allowed a \$1,000 personal exemption in addition to the regular personal exemption allowed for all individuals, and can also earn more income without being required to file taxes.

**State Fiscal Effect:** Under the bill, additional amounts of income may be subtracted beginning in tax year 2012. It is assumed that most taxpayers will adjust withholdings and estimated payments. As a result, fiscal 2013 revenues will decrease by the change in tax year 2012 revenues and also by one-half of the change in tax year 2013 revenues, resulting in a decrease of \$22.9 million in fiscal 2013. This estimate is based on the following assumptions:

• in tax year 2005, approximately 24,000 taxable returns filed by individuals over 65 years old had taxable distributions from an IRA/SEP but no pension income, with an average distribution of \$18,000; and

• the average amount excluded under the pension exclusion in tax year 2008 was \$11,160, which was about 47% of the maximum exclusion.

This estimate does not include revenue losses from distributions from Section 457(f) deferred compensation plans, distributions to individuals with disabilities, annuities, and individuals who already receive a pension and could subtract more income under the pension exclusion due to additional types of qualifying retirement income provided by the bill. This additional revenue loss is likely to be significant. Revenue losses from Roth individual retirement accounts would be minimal, as qualified distributions are not taxable for federal and State income tax purposes.

**Local Fiscal Effect:** Local government revenues decrease by 3% of the net State subtraction modification claimed. Accordingly, local government revenues decrease by \$15.3 million in fiscal 2013, \$10.6 million in fiscal 2014, \$10.9 million in fiscal 2015, \$11.3 million in fiscal 2016, and by \$11.6 million in fiscal 2017.

### **Additional Information**

**Prior Introductions:** Legislation proposing to expand the State pension exclusion have been introduced since the 2005 session. HB 622 of 2011 received an unfavorable report from the House Ways and Means Committee. HB 300 of 2010 received a hearing in the House Ways and Means Committee, but no further action was taken. Its cross file, SB 406, received a hearing in the Senate Budget and Taxation Committee, but no further action was taken. SB 527 of 2009 received a hearing in the Senate Budget and Taxation Committee, but no further action was taken. HB 158 of 2009, HB 999 of 2008, HB 1162 of 2007, and HB 151 of 2005 received a hearing in the House Ways and Means Committee, but no further action was taken.

**Cross File:** None.
