**28. Comments: (Limit Length to Visible area)**

As a community school, we want to make certain that our facility can accommodate the volume of activity we host on a weekly basis. We want to be assured that our facility is operating at a standard that goes beyond the levels of adequacy and can meet and exceed the operation safety requirements in such a diversely aged and gendered constituency.

For the county schools that are operating with certain amenities, these schools tend to have higher rates of student participation in athletics. If there are higher participation rates in student athletes then it is fair to assume that these student/athletes are attaining the count eligibility requirements. these are also the schools that are solicited when outside groups wish to hold events. Being able to accommodate a variety of outside groups will afford Largo High the luxury of securing funds to be used in its operational budget. As stated before, Largo High School is located in the northern region of Upper Marlboro and we are centrally located in the heart of Prince George's County.

We would like to be able to supplement our operating costs with the fees that are collected when outside groups wish to use the facility. Presently, this is not an option due to the current conditions. We are also afforded the opportunity to host internal events for the county or school. these funds not only compensate the school, we have made certain that we are insuring the cost of repair, promoting longevity of the facility by holding outside groups accountable and instituting a universal policy and procedure for facility usage. In order to achieve this, we must be able to provide a product that is qualified to request the allocation of fees for rental. When these fees are collected we ensure the upkeep of the facility.
