15 Container Recycling Incentive Program”

16 Annotated Code of Maryland

17 (2007 Replacement Volume and 2012 Supplement)

18 Preamble

19 WHEREAS, Four billion beverage containers are sold in Maryland each year,  
20 and fewer than 25% are reused or repurposed – the remainder end up in our landfills  
21 and litter our environment; and

22 WHEREAS, Research indicates that litter impacts public health and decreases  
23 property values, harming vulnerable communities and ecosystems; and

24 WHEREAS, Balancing environmental priorities with market incentives is  
25 crucial to growing American manufacturing in an age of globalization and climate  
26 change; and

27 WHEREAS, More than 2 decades of data from deposit states point to the  
28 economic and environmental benefits of integrating beverage container deposit  
29 incentive programs with curbside recycling; and

30 WHEREAS, Deposit systems are a proven policy tool for increasing beverage  
31 container recycling rates and protecting the environment – the 10 deposit states  
32 currently recycle more than 50% of all beverage containers in the United States,  
33 leading to reductions in greenhouse gas emissions and litter pollution; and

34 WHEREAS, The purpose of this Act is to incentivize the reuse and repurpose of  
35 beverage containers to encourage recycling, prevent litter, and reduce greenhouse gas  
36 emissions affecting Maryland and the Chesapeake Bay watershed; now, therefore,
