2 (a) (1) In this section the following words have the meanings indicated.

3 (2) (I) “ELIGIBLE RELIABILITY MEASURE” MEANS A  
4 REPLACEMENT OF OR AN IMPROVEMENT IN EXISTING INFRASTRUCTURE OF AN  
5 ELECTRIC COMPANY THAT:

6 1. IS MADE ON OR AFTER JUNE 1, 2013;

7 2. IS DESIGNED TO IMPROVE PUBLIC SAFETY OR  
8 INFRASTRUCTURE RELIABILITY;

9 3. DOES NOT INCREASE THE REVENUE OF AN  
10 ELECTRIC COMPANY BY CONNECTING AN IMPROVEMENT DIRECTLY TO NEW  
11 CUSTOMERS; AND

12 4. IS NOT INCLUDED IN THE CURRENT RATE BASE OF  
13 THE ELECTRIC COMPANY AS DETERMINED IN THE ELECTRIC COMPANY’S MOST  
14 RECENT BASE RATE PROCEEDING.

15 (II) “ELIGIBLE RELIABILITY MEASURE” INCLUDES  
16 VEGETATION MANAGEMENT MEASURES THAT ARE NECESSARY TO MEET  
17 APPLICABLE SERVICE QUALITY AND RELIABILITY STANDARDS UNDER THIS  
18 SECTION.

19 (3) “FUND” MEANS THE ELECTRIC RELIABILITY REMEDIATION  
20 FUND ESTABLISHED UNDER SUBSECTION (J) OF THIS SECTION.

21 [(2)] (4) “System-average interruption duration index” or “SAIDI”  
22 means the sum of the customer interruption hours divided by the total number of  
23 customers served.

24 [(3)] (5) “System-average interruption frequency index” or “SAIFI”  
25 means the sum of the number of customer interruptions divided by the total number of  
26 customers served.

27 (b) It is the goal of the State that each electric company provide its  
28 customers with high levels of service quality and reliability in a cost-effective manner,  
29 as measured by objective and verifiable standards, and that each electric company be  
30 held accountable if it fails to deliver reliable service according to those standards.

31 (c) This section does not apply to small rural electric cooperatives or  
32 municipal electric companies.

1 (d) On or before July 1, 2012, the Commission shall adopt regulations that

3 electricity to retail customers by electric companies through their distribution  
4 systems, using:

5 (1) SAIFI;

6 (2) SAIDI; and

7 (3) any other performance measurement that the Commission  
8 determines to be reasonable.

9 (e) (1) The regulations adopted under subsection (d) of this section shall:

23 action plan that details specific actions the company will take to meet the standards.

24 (2) The regulations adopted under subsection (d) of this section may  
25 include a separate reliability standard for each electric company in order to account  
26 for system reliability differentiating factors, including:

27 (i) system design;

28 (ii) existing infrastructure;

29 (iii) customer density; and

1 (iv) geography.

2 (3) In adopting the regulations required under subsection (d) of this  
3 section, the Commission shall:

4 (i) consider applicable standards of the Institute of Electrical  
5 and Electronics Engineers;

6 (ii) ensure that the service quality and reliability standards are  
7 cost-effective; and

8 (iii) with respect to standards relating to vegetation  
9 management, consider:

11 private property; and

13 initiatives.

14 (f) (1) On or before September 1, 2013, and September 1 of each year  
15 thereafter, the Commission shall determine whether each electric company has met
