10. Description and Purpose of Grantee Organization (Limit Length to Visible area)					
<p>The Allegany County Animal Shelter Foundation was formed in 2002 with a mission statement to improve the health, safety and quality of life for pets and animals in our community and advocate an environment in which people and animals live in harmony. It is directed by a ten-person board of directors from the Allegany County business and humane organization community.</p> <p>The ACAS Management is a 501C3 whose role in Allegany County animal rescue and animal welfare has been significantly increasing since the decision in late 2010 to stop euthanizing county shelter animals for space at the shelter. Since that time, the Foundation has raised over \$400,000 for a combination of animal care and rescue, and a capital project to construct an animal care and adoption facility in the County.</p>					

11. Description and Purpose of Project (Limit Length to Visible area)

The purpose of this project is to replace an inadequate 5,000 sq ft building that now houses the Allegany County Animal Shelter. The new objective of shelter operation to encourage adoption, foster and rescue of pets remanded to the shelter requires a significantly larger facility designed for public interaction and the marketing of shelter pets to new families and owners.

The facility is being designed by national award winning architects Stoiber and Associates from Washington DC, specialists in animal adoption and care centers. The project is an 11,000 sq ft building near the current shelter site and is designed for public education, clinical animal care and training, animal housing and adoption visitations. The estimated final cost of the project is \$2.5 million. Ground breaking is scheduled for May, 2014 and completion is anticipated in late 2015.

Round all amounts to the nearest \$1,000. The totals in Items 12 (Estimated Capital Costs) and 13 (Proposed Funding Sources) must match. The proposed funding sources must not include the value of real property unless an equivalent value is shown under Estimated Capital Costs.

28. Comments: (Limit Length to Visible area)

Our organization was not funded during the 2013 session (SB393/HB449) but we have accomplished significant progress in the interim, funding and approving design/development drawings and negotiating a ten-year operating agreement with Allegany County that will bring \$3.6 million dollars toward operating overhead in addition to the donation of a 7 acre campus and two existing buildings on the property.
